

Dear Parents,

This week we are focusing on Skill 5: Seek First to Understand, Then to Be Understood.

- I listen to other people's ideas and feelings.
- I try to see things from their viewpoint (paradigm).
- I listen to others without interrupting.
- I listen with my ears, my eyes, and my heart.
- I am confident voicing my ideas.

The focus this week will be really focusing on people. We live in a time when technology is always in our hand. The children will be learning to communicate with others and really show that that they are listening with their ears, eyes, and heart. We will learn about emotional intelligence in order to improve relationships with others. (I know that they are saying "I choose to focus on you because you are important to me." My iPod, my phone, etc.)

Often times we want people to just do it for what we intended to do, even if our actions didn't say that. However, we look at people's actions and have a difficult time looking at their inner self. Seek to understand from their viewpoint first. Don't be too literal when trying to find a "win-win" solution.

How can you ensure we focus first at home?

- Model this habit. When your child sees you looking into his or her eyes while talking and really listening to what they say, they know what genuine communication looks like.
- Encourage your child to put their technology away when talking to people and at the dinner table.

I hope that you have an UNDERSTANDING week!

The Leader in Me Stephen R. Covey, 2008-11-18 The world has entered an era of the most profound and challenging change in human history Most of our children are not prepared and we know it Parents around the world see the change and know that the traditional three R s reading writing and arithmetic are necessary but not enough Their children need to become far more responsible creative and tolerant of differences They need to increase their ability to think for themselves take initiative get along with others and solve problems Business leaders are not finding people whose skills and character match the demands of today s global economy including strong communication teamwork analytical technology and organizational skills They need young people who are self motivated creative and have a strong work ethic How will we bridge this ever widening gap The Leader in Me is the story of the extraordinary schools parents and business leaders around the world who are preparing the next generation to meet the great challenges and opportunities of the twenty first century In 1999 the A B Combs Elementary School in North Carolina was on the verge of being cut as a magnet school and needed to find new ways to educate its students Teachers and administrators began teaching practical principle based leadership skills with remarkable results In a short time the number of students passing end of grade tests vaulted from 84 to 97 percent Simultaneously the school began reporting significant increases in students self confidence dramatic drops in discipline problems and striking increases in teacher and administrator job satisfaction Parents meanwhile reported equivalent improvements in their children s attitudes and behavior at home As news of the school s success spread schools around the world began adopting the mantra to develop leaders one child at a time Business and civic leaders started partnering with schools in their communities to sponsor teacher training and student resources Each school and family approached the principles differently but the results were the same attentive energized young people engaging in the world around them The best way to prepare the next generation for the future is to emphasize the value of communication cooperation initiative and unique individual talent for nothing undermines confidence more than comparison Whether in the classroom or at home it is never too early to start applying leadership skills to everyday life Drawing on the many techniques and examples that have already seen incredible success around the world The Leader in Me shows how easy it is to incorporate these skills into daily life It is a timely answer to many of the challenges facing today s young people businesses parents and educators one that is perfectly matched to the global demands of the twenty first century

character but also provides the biography of the forgotten ideology of anarchism itself Simon Sebag Montefiore author of *Stalin The Court of the Red Tsar* The passion for destruction is a creative passion wrote the anarchist Mikhail Bakunin in 1842 Since then the popular image of anarchism has been one of violence and terror But this picture is wildly misleading and the media has done more to obscure anarchism than to explain it Focusing on the street fighting and confrontations with police mainstream commentators are unable to understand what anarchism is or why a philosophy with roots in the nineteenth century has resurfaced with such power at the dawn of the new millennium To understand anarchism it is necessary to go beyond the caricature presented by the media In this new biography of Mikhail Bakunin Mark Leier traces the life and ideas of anarchism s first major thinker and in the process revealing the origins of the movement There was little in Bakunin s background to suggest that he would grow up to be anything other than a loyal subject of the Russian Empire Instead he became one the most notorious radicals of the nineteenth century devoting his life to the destruction of the tsar and feudalism capitalism the state even God In the process he became a historical actor and political thinker whose ideas continue to influence world events Bakunin is of keen interest these days though the attention paid to his image continues to obscure the man and his ideas Using archival sources and the most recent scholarship Leier corrects many of the popular misconceptions about Bakunin and his ideas offering a fresh interpretation of Bakunin s life and thoughts of use to those interested in understanding anarchism and social change Arguing for the relevance and importance of anarchism to our present world Leier sheds light on the nineteenth century as well as on today s headlines as he examines a political philosophy that has inspired mass movements and contemporary social critics Mark Leier shows that the passion for destruction is a call to build a new world free of oppression not a cult of violence He argues that anarchism is a philosophy of morality and solidarity based not on wishful thinking or na ve beliefs about the goodness of humanity but on a practical radical critique of wealth and power By studying Bakunin we can learn a great deal about our own time and begin to recover a world of possibility and promise It is often said that we are all anarchists at heart This book explains why
