An introduction by the editor contextualizes the works, which also serve as archival materials relevant to the companion volume *Lonergan's Discovery of the Science of Economics*. Organized around specific themes such as dialectic of history, methodology, economic history, and price equilibrium, the book makes available a substantial amount of previously unpublished texts. Materials include Lonergan's earliest notes on economics prior to his move to Rome in 1933, the complete surviving portion of *An Essay in Fundamental Sociology*, and notes on economists Heinrich Pesch and Lionel Robbins, among others.
