Convention,1995 Demography at the Edge Rasmus Ole Rasmussen,Prescott Ensign,Lee Huskey,2016-05-23 Addressing the methodological and topical challenges facing demographers working in remote regions this book compares and contrasts the research methods and models and policy applications from peripheral regions in developed nations With the emphasis on human populations as dynamic adaptive evolving systems it explores how populations respond in different ways to changing environmental cultural and economic conditions and how effectively they manage these change processes Theoretical understandings and policy issues arising from demographic modelling are tackled including competition for skilled workers urbanisation and ruralisation population ageing the impacts of climate change the life outcomes of Indigenous peoples globalisation and international migration Based on a strong theoretical framework around issues of heterogeneity generational change temporariness and the relative strength of internal and external ties Demography at the Edge provides a common set of approaches and issues that benefit both researchers and practitioners **Social and Environmental Impacts in the North: Methods in Evaluation of Socio-Economic and Environmental Consequences of Mining and Energy Production in the Arctic and Sub-Arctic** Rasmus Ole Rasmussen,Natalia E. Koroleva,2012-12-06 Future development in the Arctic and Subarctic region requires careful attention to the possible consequences of the development activities themselves in relation to their environmental socioeconomic and cultural impacts A more thorough understanding of the impact of future activities however demands the dissemination and confrontation of results from different regions and different scientific traditions This requires scientific cooperation not only across disciplines but across border Primarily it requires both consensus and innovations in regard to methods This book confronts such differences in approaches and methods in relation to the analysis of socioeconomic and environmental consequences of large scale mineral and energy

development activities in the Arctic and Subarctic establishing the common ground upon which future research activities can be based **Natural Resource Extraction and Indigenous Livelihoods** Emma Gilberthorpe, Gavin Hilson, 2016-04-22

This book provides an extended analysis of how resource extraction projects stimulate social cultural and economic change in indigenous communities Through a range of case studies including open cast mining artisanal mining logging deforestation oil extraction and industrial fishing the contributors explore the challenges highlighted in global debates on sustainability Corporate Social Responsibility CSR and climate change The case studies are used to assess whether and how development processes might compete and conflict with the market objectives of multinational corporations and the organizational and moral principles of indigenous communities Emphasizing the perspectives of directly affected parties the authors identify common patterns in the way in which extraction projects are conceptualized implemented and perceived The book provides a deeper understanding of the dynamics of the human environments where resource extraction takes place and its consequent impacts on local livelihoods Its in depth case studies underscore the need for increased social accountability in the planning and development of natural resource extraction projects **Pogo Gold Mine** ,2003 **Cape Krusenstern National Monument (N.M.), Wilderness Recommendation** ,1988 **Economics** David A.
