Alex Armed And Dangerous English Edition:

ALEXANDER The Forging of a Warrior President Amond Williams, 2017-06-07 Alexander was conceived during the Fifth World War and the World people were warring which leads to a fight for survival The reasons for the wars are never mentioned but we can infer that the war was about wealth control and power His birth and natural mother situation will reflect the dire and uncertainty of the times His mother dies immediately after birth and he becomes a ward of Mary In Mary's care he is given the name of the greatest known warrior of many past centuries Alexander Mary basically schools and trains Alexander in world affairs and warfare inspired by her dead husband Colonel John's aspirations He is trained in the art of war but also with an added twist of intellectual training The child's natural innate unusual mental abilities to learn retain information analytic ability six seven and eight senses creates a one of a kind warrior leader As Alexander grows he is tested mentally and physically and the results are extraordinary His leadership abilities are a conglomeration of many great leaders of the past and his warrior abilities also reflect the many great warriors of the past These attributions are tested during the Examinations to enter the Roughful Military Institute He and thirty one other people survived the almost impossible trials and challenges of the tests and lived At the school under Alexander's leadership his class exceeds every standard the school tests And after leaving the school he is recruited to lead a secret special paramilitary unit a secret weapon controlled and mandated by the World Congress and the World's President All impossible missions assigned the Operatives under the command of Alexander are completed successfully As a result when the President of the World is threatened Alexander is called to head the President's personal security force Under the watchful command of Alexander all the President's threats to his health are despond or eliminated Because of Alexander's unique style of leadership and peaceful character he is voted to replace the President of the World who desperately wants to retire During his tenure as President of the World for two years the world experiences a period of peace and enlightenment Then out of the blue the World is faced with enslavement and domination from an advanced human race a galaxy away Again Alexander's leadership is tested and he leads the World people to an almost impossible victory The World will enjoy a long peace After a total of ten years Alexander retires as President of the World he and his family go home He and his family will enjoy the leisurely life of the country

Ideology and Mass Killing Jonathan Leader Maynard, 2022-05-26 In research on mass killings such as genocides and campaigns of state terror the role of ideology is hotly debated For some scholars ideologies are crucial in providing the extremist goals and hatreds that motivate ideologically committed people to kill But many other scholars are sceptical contending that perpetrators of mass killing rarely seem ideologically committed and that rational self interest or powerful forms of social pressure are more important drivers of violence than ideology In Ideology and Mass Killing Jonathan Leader Maynard challenges both these prevailing views advancing an alternative neo ideological perspective which systematically retheorises the key ideological foundations of large scale violence against civilians Integrating cutting edge research from multiple

disciplines including political science political psychology history and sociology Ideology and Mass Killing demonstrates that ideological justifications vitally shape such violence in ways that go beyond deep ideological commitment Most disturbingly of all the key ideological foundations of mass killings are found to lie not in extraordinary political goals or hatreds but in radicalised versions of those conventional widely accepted ideas that underpin the politics of security in ordinary societies across the world This study then substantiates this account by a detailed examination of four contrasting cases of mass killing Stalinist Repression in the Soviet Union between 1930 and 1938 the Allied Bombing Campaign against Germany and Japan in World War II from 1940 to 1945 mass atrocities in the Guatemalan Civil War between 1978 and 1983 and the Rwandan Genocide in 1994 This represents the first volume to offer a dedicated comparative theory of ideology s role in mass killing while also developing a powerful new account of how ideology affects violence and politics more generally
