Viewing Photography in Post-Dictatorship Latin America David Rojinsky,2022-11-30 This book examines the archival aesthetic of mourning and memory developed by Latin American artists and photographers between 1997 2016 Particular attention is paid to how photographs of the assassinated or disappeared political dissident of the 1970s and 1980s as found in family albums and in official archives were not only re imagined as conduits for private mourning but also became allegories of social trauma and the struggle against socio political amnesia Memorials art installations photo essays street projections and documentary films are all considered as media for the reframing of these archival images from the era of the Cold War dictatorships in Argentina Chile Guatemala and Uruguay While the turn of the millennium was supposedly marked by the end of history and with the advent of digital technologies by the end of photography these works served to interrupt and hence belie the dominant narrative on both counts Indeed the book s overarching contention is that the viewer s affective identification with distant suffering when engaging these artworks is equally interrupted instead the viewer is invited to apprehend memorial images as emblems of national and international histories of ideological struggle *Lives at Risk* Russell D.
