Al Jazeera Sports Channel :

Al Jazeera and the Global Media Landscape Tine Ustad Figenschou, 2013-10-15 This book analyzes how and why Al Jazeera English AJE became the channel of choice to understand the massive protests across the Arab world 2011 Aiming to explain the Al Jazeera moment it tracks the channel's bumpy road towards international recognition in a longitudinal in depth analysis of the channel's editorial profile and strategies Studying AJE from its launch in mid November 2006 to the Arab Spring it explains and problematizes the channel's ambitious editorial agenda and strategies examines the internal conflicts practical challenges and minor breakthroughs in its formative years The Al Jazeera phenomenon has received massive attention but it remains under researched The growth of transnational satellite television has transformed the global media landscape into a complex web of multi vocal multimedia and multi directional flows Based on a combination of policy production and content analysis of comprehensive empirical data the book offers an innovative perspective on the theorization of global news contra flows By problematizing the distinctive characteristics of AJE it examines the strategic motivation behind the channel and the ways in which its production processes and news profile are meant to be different from its Anglo American competitors These questions underscore a central nexus of the book the changing relationship between transnational satellite news and power

The Culture of Al Jazeera Mohamed Zayani, Sofiane Sahraoui, 2017-09-29 In the mid 1990s the emir of Qatar conceived the idea of a satellite channel that would further the progressive image he hoped to establish for his small Arabian Persian Gulf state At the same time a short lived partnership between the BBC and a Saudi company had left a handful of BBC trained Arab journalists and broadcasters up for grabs That was the inception of Al Jazeera a satellite channel which changed forever the face of Arab broadcasting with its uncensored news and bold talk show programs The September 11 attacks on the United States and the war on terrorism vaulted Al Jazeera to international prominence but also turned it into a source of controversy Despite the controversy or perhaps in part because of it in less than a decade the channel has transformed itself from an obscure regional news broadcaster to a multi channel multi lingual multi service global enterprise This book's in depth look at Al Jazeera examines whether its global success reflects particular organizational strengths It explores whether Al Jazeera is merely a fad thriving on the thirst for free speech in the Middle East or a new medium whose success will be sustained by its organizational culture and model This work delves deep into the culture workings and challenges of this powerful media organization to provide insights on its achievements its future and the true measure of its success

Communication and Sport Michael L. Butterworth, 2021-07-19 Sport is a universal feature of global popular culture It shapes our identities affects our relationships and defines our communities It also influences our consumption habits represents our cultures and dramatizes our politics In other words sport is among the most prominent vehicles for communication available in daily life Nevertheless only recently has it begun to receive robust attention in the discipline of communication studies The handbook of Communication and Sport attends to the recent and

rapid growth of scholarship in communication and media studies that features sport as a central site of inquiry The book attempts to capture a full range of methods theories and topics that have come to define the subfield of communication and sport or sports communication It does so by emphasizing four primary features First it foregrounds communication as central to the study of sport This emphasis helps to distinguish the book from collections in related disciplines such as sociology and also points readers beyond media as the primary or only context for understanding the relationship between communication and sport Thus in addition to studies of media effects mediatization media framing and more readers will also engage with studies in interpersonal intercultural organizational and rhetorical communication Second the handbook presents an array of methods theories and topics in the effort to chart a comprehensive landscape of communication and sport scholarship Thus readers will benefit from empirical interpretive and critical work and they will also see studies drawing on varied texts and sites of inquiry Third the handbook of Communication and Sport includes a broad range of scholars from around the world It is therefore neither European nor North American in its primary focus In addition the book includes contributors from commonly under represented regions in Asia Africa and South America Fourth the handbook aims to account for both historical trajectories and contemporary areas of interest In this way it covers the central topics debates and perspectives from the past and also suggests continued and emerging pathways for the future Collectively the handbook of Communication and Sport aspires to provide scholars and students in communication and media studies with the most comprehensive assessment of the field available

Arab Television Today Naomi Sakr, 2007-10-24 There is a great deal at stake for everyone in the future of Arab television Political and social upheavals in this central but unsettled region are increasingly played out on television screens and in the tussles over programming that take place behind them Al Jazeera is of course only one player among a still growing throng of satellite channels which now include private terrestrial stations in some Arab states It is an industry urgently needing to be made sense of this book does exactly this in a very readable and authoritative way through exploring and explaining the evolving structures and content choices in both entertainment and news of contemporary Arab television It shows how owners investors journalists presenters production companies advertisers regulators and media freedom advocates influence each other in a geolinguistic marketplace that encompasses the Arab region itself and communities abroad Probing internal and external interventions in the Arab television landscape the book offers a timely and compelling sequel to Naomi Sakr's *Satellite Realms Transnational Television Globalization and the Middle East* which won the Middle Eastern Studies Book Prize in 2003

Sport, Public Broadcasting, and Cultural Citizenship Jay Scherer, David Rowe, 2013-08-15 This book examines the political debates over the access to live telecasts of sport in the digital broadcasting era It outlines the broad theoretical debates political positions and policy calculations over the provision of live free to air telecasts of sport as a right of cultural citizenship In so doing the book provides a number of comparative case studies that explore these debates and issues in various global spaces

Saudi Arabia and the Gulf Arab States Today Sebastian Maisel, John A. Shoup, 2009-02-17 This extremely timely and helpful ready reference will familiarize all students and readers with the Gulf region and Saudi Arabia Bahrain Dubai the UAE Kuwait Oman Yemen and Qatar These states are bound by the desert culture the Gulf new oil economy and Islam to name some commonalities Most Americans know something about the region such as oases dates camels oil Bedouin tribes and the legends of Lawrence of Arabia to Osama bin Laden Islamic concepts and practices are still unfamiliar On one extreme Saudi Arabia the cradle of Islam has been largely closed off to Western tourists On the other extreme Dubai courts tourist dollars as it constructs modern architectural showcases This is the first A Z encyclopedia to focus on the Gulf illuminating the land people religion culture and traditions institutions economy and much more for general readers The more than 200 essay entries have a current focus with historical context as necessary The breadth of coverage means that this resource will be of use for a wide range of researchers and browsers Besides individual entries on each state major cities and regions are also profiled The natural environment and human adaptation to it receives significant space Islamic customs and rules and various interpretations are clearly explained Essays on topics such as key public figures institutions major events politics and state structures some based on sources often not available in English make this two volume set the first choice resource for accurate information Suggestions for further reading accompany most entries a chronology selected bibliography and photos also complement the text **Arab Media** Noha Mellor, Khalil Rinnawi, Nabil Dajani, Muhammad I. Ayish, 2013-05-20 This book provides a clear and authoritative introduction to the emerging Arab media industries in the context of globalization and its impacts with a focus on publishing press broadcasting cinema and new media Through detailed discussions of the regulation and economics of these industries the authors argue that the political technological and

cultural changes on the global media scene have resulted in the reorganization of the Arab media field. They provide striking examples of this through the particular effects on media policies, media technology and the content and genres developed for the new generation of media consumers. As part of the book's overview of the contemporary characteristics of Arab media, the authors outline the development of the role of modern Arab media from a tool of mobilizing the public to a tool of commercial and symbolic profit. Overall, the volume illustrates how the Arab region represents a unique case where the commercialization and liberalization of selected media industries has gone hand in hand with continuous state intervention and an increasing self-censorship. Written for students without prior knowledge of the topic, *Arab Media* will be essential reading for all interested in the contemporary global media industries. *Arab Television Industries* Joe F. Khalil, Marwan M.

Kraidy, 2017-10-14 In recent years, Arab television has undergone a dramatic and profound transformation from terrestrial government-owned national channels to satellite privately owned transnational networks. The latter is the Arab television that matters today economically, socially and politically. The resulting pan-Arab industry is vibrant, diverse and fluid, very different from the authors of this major new study argue from the prevailing view in the West which focuses only on the al Jazeera network. Based on a wealth of primary Arabic language sources, interviews with Arab television executives and the authors' personal and professional experience with the industry, *Arab Television Industries* tells the story of that transformation, featuring compelling portraits of major players and institutions and capturing dominant trends in the industry. Readers learn how the transformation of Arab television came to be, the different kinds of channels, how programs are made and promoted and how they are regulated. Throughout, the analysis focuses on the interaction of the television industry with Arab politics, business, societies and cultures. **The Report: Qatar 2012**, *Exploring the World: Adventures of a Global Traveler* Howard J.

Wiarda, 2013-08-26 Professor Howard J. Wiarda, a leading academic expert on foreign policy, comparative politics and international affairs, is the author of more than eighty books. Wiarda has traveled to many of the world's most troubled and exciting places. Now, in the more personal accounts of his global travels, he recalls his foreign research adventures, the countries visited and the people he met and interviewed along the way. Wiarda's new four-volume set *Exploring the World: Adventures of a Global Traveler* details his travels and foreign adventures since 2006. In these travel books, he tells the stories that lie behind the research, offers his impressions of the countries and regions he has explored and considers how and why some have been successful and others not. Volume I in this new series tells the story of Wiarda's 2010 circumnavigation of the globe. Volume II focuses on Europe and the continued importance of European regionalism despite the bumper stickers advertising Europe Whole and Free. Volume III deals with Latin America and questions whether the region is really as democratic as we would like it to be. Volume IV provides Wiarda's analysis of Asia's economic miracles while also recounting his recent visits to the Persian Gulf and his assessment of modernization and development in the Islamic world. Insightful and entertaining, Wiarda's travel narratives offer commentary on important and interesting sites all over the world. **New**
