Matthews, 2023-10-09 La Collection monographique Rodopi en littérature française contemporaine vise à faire découvrir à travers un riche éventail d'approches critiques les écrivains français d'aujourd'hui dont l'œuvre s'impose de par l'originalité de sa vision et la profondeur de ses enjeux Rédigés en français ou en anglais les textes traiteront à la fois de la pertinence globale et des spécificités marquantes de ces œuvres dont la force d'interpellation innove le champ de la production littéraire récente The Collection monographique Rodopi en littérature française contemporaine engages by way of a rich variety of critical approaches with today's French writers whose work exhibits a striking originality of vision and breadth of creative endeavour Written in French or English studies will explore at once the overall significance and the distinctive features of these works whose multifaceted appeal places them at the fore of recent literary production Single authors and editors of collected volumes are cordially invited to submit proposals and or full manuscripts to the publisher at BRILL Christa Stevens "The Beautiful Language of My Century" Tom McDonough, 2007 In postwar France the aesthetics of appropriation and collage gave cultural form to a struggle over meaning A new wave of avant garde experimentation used or stole plagiarized and expropriated elements from advertising journalism literature art and other sources of common discourse the ironically named beautiful language of this book's title itself an appropriation from Guy Debord's collaged *Mémoires* Redeployed often in startling or pointed juxtapositions these elements took on newly oppositional meanings A famous photograph taken inside the occupied Sorbonne in May 1968 for example shows a massive academic painting altered by a clever cartoonish speech bubble that transforms the painting into a parody of itself and memorializes an event very different from the one captured by the original artist The

Beautiful Language of My Century describes the various forms of critical culture that culminated in the events of May 1968 and investigates the ways those forms have come down to us today McDonough explores the montage practice developed by Guy Debord and his situationist colleagues under the name of *dé-tournement* and its expression in the later fifties as a form of cultural theft He addresses the influence of colonialism on these practices examining a 1961 exhibit of torn posters of the Algerian War *La France déchirée* Godard's early film *Le Petit Soldat* and Christo's Project for a Temporary Wall of Steel Drums He discusses the French left's adoption in the mid sixties of the end of art as a theoretical position and describes the leftist idea of the *féte* as a Rabelaisian and revolutionary upwelling of everything that is low This influential conception inspired equally by the American urban revolts of the sixties and the writings of theorists Marcel Mauss and Georges Bataille coalesced into a new image of revolution a new model of contestation in the events of May 1968 when the struggle over language and culture merged with a broader resistance to capitalist modernization
