

POWER WINDOWS

Power windows will operate only when the ignition is in "RUN."

MIRRORS**Inside Rearview Mirror**

The inside mirror can be adjusted up, down or sideways to obtain the best view. Move the mirror lever to the up position to reduce glare from the headlights of vehicles behind you.

On Avanti's equipped with the optional automatic rearview mirrors, simply turn the switch at the bottom of the mirror to the "on" position and the mirror will dim automatically. Adjusting the numeric knob will adjust the sensitivity.

**Outside Rearview Mirrors**

Adjust the outside mirrors so you can just see the side of your vehicle. This helps you to determine the location of objects seen in the mirror. The power control for the left-hand and right-hand outside rearview mirrors is located on the forward section of the driver's interior door trim panel. Move the slide bar at the bottom of this panel forward to adjust the passenger side mirror. Push it towards the rear to adjust the driver side mirror. Then, simply press the appropriate button to achieve the desired adjustment direction.

Convex Rearview Mirror

Your vehicle comes equipped with a convex outside right-hand mirror.

Use care when judging the size or distance of a vehicle or other object seen in this convex mirror - such objects will look smaller and appear farther away than when seen in a flat mirror.

Use your inside mirror or glance rearward to determine the size or distance of objects seen in the convex mirror.

FRONT SEAT**Manual Seat Adjustment**

The seats may be adjusted forward or rearward by moving the control lever located under the front of the seat. Move the lever toward the left side of the car to release the locking mechanism; then exert slight body pressure to move the seat to the desired position. Release the control lever to lock the seat in the desired position.
