Advent sermons on Antichrist John Henry Newman, 1838 *Antichrist. The First Resurrection. Two Advent sermons*
William Robinson Clark, 1865 **Advent Sermons on Antichrist** John Henry Newman, 1842 **Advent Sermons on Antichrist**, 1838 **Tracts for the Times, No. 83**, 1842 Tracts for the Times John Henry Newman, John Keble, William Palmer, Richard Hurrell Froude, Edward Bouverie Pusey, 1840 *John Henry Newman Sermons 1824-1843* Saint John Henry Newman, 2011-03-31 A scholarly edition of thirty nine sermons by John Henry Newman Part I includes 12 sermons preached on the subject of the Church between 1824 1837 including the first sermon Newman ever preached on high church principles Part II contains a miscellany of twenty seven sermons preached between 1828 and 1840 Apologia Pro Vita Sua and Six Sermons John Henry Newman, 2008-01-01 This newly edited version of John Henry Newman s *Apologia Pro Vita Sua* sheds new light on Newman s celebrated account of his passage from the Church of England to the Roman Catholic Church and repositions his narrative within the context of transformative religious journeys of other Victorian intellectuals Frank M Turner is the first historian of Victorian thought religion and culture to edit Newman s classic autobiographical narrative Drawing on extensive research in contemporary printed materials and archives Turner s powerfully revisionist Introduction reevaluates and challenges the historical adequacy of previous interpretations of Newman s life and of the *Apologia* itself He further presents Newman s volume as a response to ultramontane assertions of papal authority in the 1860s In addition to numerous explanatory textual annotations the volume includes an Appendix featuring six important Anglican sermons that providesignificant insights into Newman s thought during the years recounted in the *Apologia* *The Fathers on the Future: A 2nd-Century Eschatology for the 21st-Century Church* Michael J. Svigel, 2024-11-05 Dive into the classic eschatology of Irenaeus of Lyons with *The Fathers on the Future* as you unpack key truths untangle misunderstandings and get a deeper understanding of this balanced and biblically sound end times framework Many today with an interest in the end times face a problem they have forgotten the past Knowing the history of eschatology is key to understanding its importance how we interpret our faith and our outlook on God and humanity So why do so many overlook it and what can we do to correct this *The Fathers on the Future* uses a thorough exegetical and theological analysis to defend the foundation and structure of the second century premillennial futurist eschatology of Irenaeus of Lyons and other church fathers It makes a case for a contemporary Irenaeian premillennial eschatology arguing that it is a reliable framework for a biblically defensible theologically balanced and historically informed eschatology *The Fathers on the Future* includes these key features Restores historical perspective Recovers the forgotten roots of early Christian eschatology emphasizing the teachings of Irenaeus of Lyons and other church fathers Biblically grounded framework Offers a well supported case for a biblically defensible premillennial eschatology balancing theology and history Clarifies and corrects Clarifies complex aspects of early eschatology strengthens key theological points and corrects missteps Fresh yet ancient approach Presents an eschatological

perspective that is new to modern readers but deeply rooted in ancient Christian traditions The Fathers on the Future begins with the belief that Irenaeus and other early church fathers represented a widespread and well developed eschatology inherited from those who were close associates of the apostles It then explores some of features of that early eschatology clarifying obscure points strengthening some elements and correcting a few missteps By looking back to Irenaeus and the eschatological emphases of his age this book provides a new approach to eschatology today new to contemporary readers but ancient in its original perspective

Religion, Politics and Dissent, 1660-1832 Robert D. Cornwall, 2016-04-15 The idea of the long eighteenth century 1660-1832 as a period in which religious and political dissent were regarded as antecedents of the Enlightenment has recently been advanced by several scholars The purpose of this collection is further to explore these connections between religious and political dissent in Enlightenment Britain Addressing the many and rich connections between political and religious dissent in the long eighteenth century the volume also acknowledges the work of Professor James E Bradley in stimulating interest in these issues among scholars Contributors engage directly with ideas of secularism radicalism religious and political dissent and their connections with the Enlightenment or Enlightenments together with other important themes including the connections between religious toleration and the rise of the enlightenments Contributors also address issues of modernity and the ways in which a modern society can draw its inspiration from both religion and secularity as well as engaging with the seventeenth century idea of the synthesis of religion and politics and its evolution into a system in which religion and politics were interdependent but separate Offering a broadly conceived interpretation of current research from a more comprehensive perspective than is often the case the historiographical implications of this collection are significant for the development of ideas of the nature of the Enlightenment and for the nature of religion society and politics in the eighteenth century By bringing together historians of politics religion ideas and society to engage with the central theme of the volume the collection provides a forum for leading scholars to engage with a
