Thomas,2023-07-06 In 2010 Cartoon Network debuted a new animated series called Adventure Time and within just a few short years the show became both a pop culture phenomenon and a critical darling But despite all the admiration not many works of scholarship have assessed the show through a critical lens This anthology is an attempt to fill this scholarly oversight and spark a wider conversation about the show s deeper themes Across 15 scholarly essays this book s contributors study Adventure Time from a variety of angles proving just how insightful the series really is From a consideration of BMO s queer identity to a psychoanalytic reading of Lemongrab and an examination of how anime has impacted the show the topics explored in this anthology are diverse and unique and are likely to appeal to scholars and fans alike

Mimetic Theory and Film

Paolo Diego Bubbio, Chris Fleming, 2019-02-21 The interdisciplinary French American thinker Ren Girard 1923 2015 has been one of the towering figures of the humanities in the last half century The title of Ren Girard s first book offered his own thesis in summary form romantic lie and novelistic truth mensonge romantique et v rit romanesque And yet for a thinker whose career began by an engagement with literature it came as a shock to some that in *La Conversion de l art* Girard asserted that the novel may be an outmoded form for revealing humans to themselves However Girard never specified what if anything might take the place of the novel This collection of essays is one attempt at answering this question by offering a series of analyses of films that aims to test mimetic theory in an area in which relatively little has so far been offered Does it make any sense to talk of v rit filmique In addition *Mimetic Theory and Film* is a response to the widespread objection that there is no viable Girardian aesthetics One of the main questions that this collection considers is can we develop a genre specific mimetic analysis of film and are we able to develop anything approaching a Girardian aesthetic Each of the contributors addresses these questions through the analysis of a film

Biotheory Jeffrey R. Di Leo, Peter Hitchcock, 2020-01-15 Forged at the intersection of intense interest in the pertinence and uses of biopolitics and biopower this volume analyzes theoretical and practical paradigms for understanding and challenging the socioeconomic determinations of life and death in contemporary capitalism Its contributors offer a series of trenchant interdisciplinary critiques each one taking on both the specific dimensions of biopolitics and the deeper genealogies of cultural logic and structure that crucially inform its impress New ways to think about biopolitics as an

explanatory model are offered and the subject of bios life ways of life itself is taken into innovative theoretical possibilities On the one hand biopolitics is addressed in terms of its contributions to forms and divisions of knowledge on the other its capacity for reformulation is assessed before the most pressing concerns of contemporary living It is a must read for anyone concerned with the study of bios in its theoretical profusions **Theorizing Stupid Media** Aaron Kerner, Julian

Hoxter, 2019-11-05 This book explores the stupid as it manifests in media the cinema television and streamed content and videogames The stupid is theorized not as a pejorative term but to address media that fails to conform to established narrative conventions often surfacing at evolutionary moments The Transformers franchise is often dismissed as being stupid because its stylistic vernacular privileges kinetic qualities over conventional narration Similarly the stupid is often present in genre fails like mother or in instances of narrative dissonance joyously in Adventure Time more controversially in Gone Home where a story feels off It also manifests in ludonarrative dissonance when gameplay and narrative seemingly run counter to one another in videogames like Undertale and Bioshock This book is addressed to those interested in media that is quirky spectacle driven or generally hard to place stupid *The Sense of the Sacred in the Early Novels of Quebec* Lisa M.

Gasbarrone, 2024-10-15 Quebec s early novels are full of sacred themes and motifs devotional objects and practices parables and scripture priests and nuns transcendence divinity and eternity Yet the critical gaze of the past fifty years has seldom engaged the idea of the sacred in a sustained way Indeed the presence of the sacred has alienated modern and postmodern readers who ignore or downplay its significance leading to misguided assessments of these works as mediocre and even unreadable for contemporary audiences *The Sense of the Sacred in the Early Novels of Quebec* reexamines seven classic novels at the foundations of Quebec s national literature Patrice Lacombe s *La Terre paternelle* 1846 P J O Chauveau s *Charles Gu rin* 1853 Antoine G rin Lajoie s *Jean Rivard* 1874 Philippe Aubert de Gasp s *Les Anciens Canadiens* 1863 Laure Conan s *Ang line de Montbrun* 1884 Louis H mon s *Maria Chapdelaine* 1916 and F lix Antoine Savard s *Menaud ma tre draveur* 1937 Through chapters that focus on sacred themes character analysis narrative temporalities and the hermeneutics of the sacred Lisa Gasbarrone demonstrates that these novels are more nuanced and innovative than their reputation has allowed *The Sense of the Sacred in the Early Novels of Quebec* reintroduces readers to classic works of French Canadian literature that ironically and provocatively cast their quarrel with modernity in that essentially modern form the novel

Theory in Social and Cultural Anthropology R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume Theory in Social and Cultural Anthropology An Encyclopedia Features Benefits Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader's Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader's Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion

Arts and Minds Gregory Currie, 2004-11-25 Philosophical questions about the arts go naturally with other kinds of questions about them Art is sometimes said to be an historical concept But where in our cultural and biological history did art begin If art is related to play and imagination do we find any signs of these things in our nonhuman relatives Sometimes the other questions look like ones the philosopher of art has to answer Anyone who thinks that interpretation in the arts is an activity that leaves the intentions of the author behind needs to explain how and why this differs so fundamentally from ordinary conversational interpretation where the only decent models we have are ones that depend crucially on the recovery of intention Anyone who thinks that imaginative literature has anything to tell us about time had better have a position on how earlier and later relate to past and future Anyone who thinks that empathy plays a role in literary engagement had better have a psychologically plausible account of what empathy is Philosophical questions about the arts also go naturally with other kinds of philosophical questions we can't think constructively about representation in art without thinking about representation text meaning reference and existence get similarly drawn into the conversation Some ideas that philosophers of art deal with emerge from other disciplines In literary theory an enormous amount of attention has

been lavished on tracing the sources of unreliability in narrative Is the result adequate to the details of the particular works we call unreliable Contemporary film theory is generally hostile to the fiction documentary distinction Are there in fact any grounds for this This book of thirteen connected essays examines questions of all these kinds It ranges from the semantics of proper names through the pragmatics of literary and filmic interpretation to the aesthetic function of stone age implements Some of the essays have not been published before some that have are here substantially revised

Mapping the Moving Image Pasi Väliäho, 2010 In Mapping the Moving Image Pasi Väliäho offers a compelling study of how the medium of film came to shape our experience and thinking of the world and ourselves By locating the moving image in new ways of seeing and saying as manifest in the arts science and philosophy at the turn of the twentieth century the book redefines the cinema as one of the most important anthropological processes of modernity Moving beyond the typical understanding of cinema based on optical and linguistic models Mapping the Moving Image takes the notion of rhythm as its cue in conceptualizing the medium's morphogenetic potentialities to generate affectivity behaviour and logics of sense It provides a clear picture of how the forms of early film while mobilizing bodily gestures and demanding intimate affective engagement from the viewer emerged in relation to bio political investments in the body The book also charts from a fresh perspective how the new gestural dynamics and visuality of the moving image fed into our thinking of time memory and the unconscious

The Relevance of Hegel's Concept of Philosophy Luca Illetterati, Giovanna Miolli, 2021-12-16 In a systematic treatment of Hegel's concept of philosophy and all of the different aspects related to it this collection explores how Hegel and his understanding of his discipline can be put into dialogue with current metaphilosophical inquiries and shed light on the philosophical examination of the nature of philosophy itself Taking into account specific aspects of Hegel's elaboration on philosophy such the scientificity of philosophy as a self grounding rational process and his explanation of the relationship between philosophy and the history of philosophy an international line up of contributors consider Hegel's concept of philosophy in general from skepticism idealism history and difference to time politics and religion The relation of Hegel's concept of philosophy to other philosophical traditions and philosophers including Kant Fichte Schelling and Jacobi Hegel's concept of philosophy with reference to philosophy's relation to other forms of rationality and disciplines The relation of Hegel's concept of philosophy to specific issues in present metaphilosophical debates Reflecting the renewed and widespread interest in Hegel seen in Analytic philosophy and Continental thought this volume advances study of Hegel's conceptual tools and provides new readings of traditional philosophical problems

Difference, Dialogue, and Development Lakshmi Bandlamudi, 2015-12-22 Difference Dialogue and Development is an in depth exploration of the collected works of Mikhail Bakhtin to find relevance of key concepts of dialogism for understanding various aspects of human development Taking the reality of differences in the world as a given Bandlamudi argues that such a reality necessitates dialogue and actively responding to that necessity leads to development The varied works of Bakhtin that span several decades passing through

the most tumultuous period in Russian history are brought under one banner of three D s Difference Dialogue and Development and the composite features of the three D s emerge as leitmotifs in every chapter **Mikhail Bakhtin** Gary Saul Morson, Caryl Emerson, 1990 Books about thinkers require a kind of unity that their thought may not possess This cautionary statement is especially applicable to Mikhail Bakhtin whose intellectual development displays a diversity of insights that cannot be easily integrated or accurately described in terms of a single overriding concern Indeed in a career spanning some sixty years he experienced both dramatic and gradual changes in his thinking returned to abandoned insights that he then developed in unexpected ways and worked through new ideas only loosely related to his earlier concerns Small wonder then that Bakhtin should have speculated on the relations among received notions of biography unity innovation and the creative process Unity with respect not only to individuals but also to art culture and the world generally is usually understood as conformity to an underlying structure or an overarching scheme Bakhtin believed that this idea of unity contradicts the possibility of true creativity For if everything conforms to a preexisting pattern then genuine development is reduced to mere discovery to a mere uncovering of something that in a strong sense is already there And yet Bakhtin accepted that some concept of unity was essential Without it the world ceases to make sense and creativity again disappears this time replaced by the purely aleatory There would again be no possibility of anything meaningfully new The grim truth of these two extremes was expressed well by Borges an inescapable labyrinth could consist of an infinite number of turns or of no turns at all Bakhtin attempted to rethink the concept of unity in order to allow for the possibility of genuine creativity The goal in his words was a nonmonologic unity in which real change or surprisingness is an essential component of the creative process As it happens such change was characteristic of Bakhtin s own thought which seems to have developed by continually diverging from his initial intentions Although it would not necessarily follow that the development of Bakhtin s thought corresponded to his ideas about unity and creativity we believe that in this case his ideas on nonmonologic unity are useful in understanding his own thought as well as that of other thinkers whose careers are comparably varied and productive **The Routledge Companion to Religion and Popular Culture** John C. Lyden, Eric Michael

Mazur, 2015-03-27 Religion and popular culture is a fast growing field that spans a variety of disciplines This volume offers the first real survey of the field to date and provides a guide for the work of future scholars It explores key issues of definition and of methodology religious encounters with popular culture across media material culture and space ranging from videogames and social networks to cooking and kitsch architecture and national monuments representations of religious traditions in the media and popular culture including important non Western spheres such as Bollywood This Companion will serve as an enjoyable and informative resource for students and a stimulus to future scholarly work *You Can't See My Scars* Darren Cosentino, 2017-09-11 At thirty seven years old Darren Cosentino is fit and healthy with a busy social life and a successful career Returning from a holiday in Mexico with his wife Sara he develops stomach pains and

heads to the hospital with what seems to be a case of severe constipation. He is diagnosed with terminal colon cancer and given six months to live. In this true story, Darren's diagnosis changes his life, but he doesn't let it stop him from living. He becomes an empowered and involved patient, working closely with his doctors in carrying out his treatment plans and continuing an active lifestyle that includes daily hot yoga, scuba diving, hunting, socializing, travel, and getting the most out of every day. Always adventurous, cancer makes him even more ambitious. Darren shows that even with a terminal diagnosis, there are ways to thrive and live an incredible life. He makes a special point of recounting the support he's received, personally thanking friends, family, and health care professionals every person who made his and Sara's journey better. His story will inspire and motivate patients faced with challenging treatment regimens, as well as help friends and family members of people undergoing difficult medical treatment better understand how to support their loved ones. Darren's perseverance and optimism make *You Can't See My Scars* about much more than cancer; this is a story about how to approach life and death and a meditation on the power of positivity, gratitude, community, a deeply loving spousal partnership. Net proceeds received from the sale of this book will be donated to the CancerCare Manitoba Foundation Darren Cosentino Memorial Fund.
