Afcpe Exam Study Guide:

Student Financial Literacy Dorothy B. Durband, Sonya L. Britt, 2012-03-31 College students are particularly vulnerable to making poor financial decisions. One method of addressing personal finances and financial stress among students of higher education is through university based financial education programs. Student Financial Literacy Program Development presents effective strategies to assist in the implementation or the enhancement of a program as a tool to improve students' educational experience and financial well-being. It presents the key components of financial education programs designed to address the growing concerns associated with high levels of debt and low levels of financial literacy among college students. Student Financial Literacy Campus Based Program Development is packed with financial education and counseling information and guidance. It was very difficult to write this review as I wanted to share ALL the excellent direction this book provides. The editors and contributing authors have developed an excellent resource for not only those interested in developing or enhancing a campus based financial education program but also for anyone involved in financial education counseling and planning. Rebecca J. Travnichek, Family Financial Education Specialist, University of Missouri Extension, *Journal of Financial Counseling and Planning*. The Guide to National Professional Certification Programs Philip M. Harris, 2001. The job market continues to change. Highly skilled and specialized workers are in demand. Traditional education cannot meet all the needs to create specialty skill workers. Certification provides up-to-date training and development while promoting individual or professional skills and knowledge in a focused manner. Certification as a way of continuing professional education can also be more cost effective. **Take Charge!** Edie Milligan, 2001-10. *Take Charge: A Woman's Guide to a Secure Retirement* puts retirement planning in the context of essential life decisions every woman must make. Topics include viewpoints, philosophies, and myths about retirement from a woman's point of view; how women are living out and in some cases outliving their retirement; and learning from their successes and failures. The what-ifs of retirement, common situations and questions, identifying how much will be needed and compensating for taxes and inflation, investing for retirement, pensions, social security, and tax traps and plotting and updating your strategy. **Consumer Sourcebook**, 1998.
