**Rethinking Human Rights and Global Constitutionalism** Ekaterina Yahyaoui Krivenko, 2017-10-26 Are human rights really a building block of global constitutionalism Does global constitutionalism have any future in the theory and practice of international law and global governance This book critically examines these key questions by focusing on the mechanisms utilised by global constitutionalism whilst comparing the historical functioning of constitutional rights in national systems Yahyaoui Krivenko provides new insights into the workings of human rights and associated notions such as the state the political and the individual by demonstrating that human rights are antithetical to global constitutionalism and encouraging new discussions on the meaning of global constitutionalism and human rights Drawing on the interdisciplinary works of such thinkers as Agamben Luhmann Bourdieu Deleuze and Guattari this book also considers practical examples from historical experience of ancient Greek and early Islamic societies It will appeal to scholars interested in human rights international law and critical legal theory

*Exceptionalism and the Politics of Counter-Terrorism* Andrew W. Neal, 2009-10-16 This book is an analysis and critique of the concepts of exception and exceptionalism in the context of the politics of liberty and security in the so called War on Terror Since the destruction of the World Trade Centre on September 11th 2001 a notable transformation has occurred in political discourse and practice Politicians and commentators have frequently made the argument that the rules of the game have changed that this is a new kind of war and that exceptional times require exceptional measures Under this discourse of exceptionalism an array of measures have been put into practice such as detention without trial extraordinary rendition derogations from human rights law sanction or connivance in torture the curtailment of civil liberties and aggressive war against international law Situating exceptionalism within the post 9 11 controversy about the relationship between liberty and security this book argues that the problem of exceptionalism emerges from the limits and paradoxes of liberal democracy itself It is a commentary and critique of both contemporary practices of exceptionalism and the critical debate that has formed in response Through a detailed assessment of the key theoretical

contributions to the debate this book develops exceptionalism as a critical tool It also engages with the problem of exceptionalism as a discursive claim as a strategy as a concept as a theoretical problem and as a practice This is the first book to capture the importance of the exceptionalism debate in a single volume and will be of much interest to students of critical security studies political philosophy IR theory and sociology *The Literary Exception and the Rule of Law* Johan Van Der Walt,2022-07-20 Addressing the influential analysis of law and literature this book offers a new perspective on their relationship The law and literature movement that has gained global prominence in the course of last decades of the twentieth and the first decades of the twenty first centuries has provided the research and teaching of law with a considerable body of new and valuable knowledge and understanding Most of the knowledge and insights generated by the movement concern either a thematic overlap between legal and literary discourses suggesting they deal with the same moral concerns or a rhetorical semiotic or general linguistic comparability or sameness between them imputing to both the same or very similar narrative structures The Literary Exception and the Rule of Law recognises the wealth of knowledge generated by this approach to the relationship between law and literature and acknowledges its debt to this genre of scholarship It nevertheless also proposes on the basis of a number of revealing phenomenological inquiries a different approach to law and literary studies one that emphasises the irreducible difference between law and literature It does so with the firm belief that a regard for the very different and indeed opposite discursive trajectories of legal and literary language allows for a more profound understanding of the unique and indeed separate roles that the discourses of law and literature generally play in the sustenance of relatively stable legal cultures This important rethinking of the relationship between law and literature will appeal to scholars and students of legal theory jurisprudence philosophy politics and literary theory *This Thing Called the World* Debjani Ganguly,2016-07-21 In *This Thing Called the World* Debjani Ganguly theorizes the contemporary global novel and the social and historical conditions that shaped it Ganguly contends that global literature coalesced into its current form in 1989 an event marked by the convergence of three major trends the consolidation of the information age the arrival of a perpetual state of global war and the expanding focus on humanitarianism Ganguly analyzes a trove of novels from authors including Salman Rushdie Don DeLillo Michael Ondaatje and Art Spiegelman who address wars in Iraq Afghanistan and Sri Lanka the Palestinian and Kashmiri crises the Rwandan genocide and post9 11 terrorism These novels exist in a context in which suffering's presence in everyday life is mediated through digital images and where authors integrate visual forms into their storytelling In showing how the evolution of the contemporary global novel is analogous to the European novel's emergence in the eighteenth century when society and the development of capitalism faced similar monumental ruptures Ganguly provides both a theory of the contemporary moment and a reminder of the novel's power *Routledge Handbook on Human Rights and the Middle East and North Africa* Anthony Tirado Chase,2016-11-10 Recent events such as Iran's Green Revolution and the Arab Uprisings have exploded notions that human rights are irrelevant to

Middle Eastern and North African politics Increasingly seen as a global concern human rights are at the fulcrum of the region's on the ground politics transnational intellectual debates and global political intersections The Routledge Handbook on Human Rights and the Middle East and North Africa emphasises the need to consider human rights in all their dimensions rather than solely focusing on the political dimension in order to understand the structural reasons behind the persistence of human rights violations explores the various frameworks in which to consider human rights conceptual political and transnational international discusses issue areas subject to particularly intense debate gender religion sexuality transitions and accountability contains contributions from perspectives that span from global theory to grassroots reflections emphasising the need for academic work on human rights to seriously engage with the thoughts and practices of those working on the ground A multidisciplinary approach from scholars with a wide range of expertise allows the book to capture the complex dynamics by which human rights have had or could have an impact on Middle Eastern and North African politics This book will therefore be a key resource for students and scholars of Middle Eastern and North African politics and society as well as anyone with a concern for Human Rights across the globe *Specters of the Atlantic* Ian Baucom, 2005-12-16

Cultural and literary study of the 1781 massacre on the slaveship Zong for the insurance money and the aftereffects of the event on the development of modernity **Human Rights and the Body** Annabelle Mooney, 2016-05-13 Human Rights and the Body is a response to the crisis in human rights to the very real concern that without a secure foundation for the concept of human rights their very existence is threatened While there has been consideration of the discourses of human rights and the way in which the body is written upon research in linguistics has not yet been fully brought to bear on either human rights or the body Drawing on legal concepts and aspects of the law of human rights Mooney aims to provide a universally defensible set of human rights and a foundation or rather a frame for them She argues that the proper frames for human rights are firstly the human body seen as an index reliant on the natural world secondly the globe and finally language These three frames generate rights to food water sleep and shelter environmental protection and a right against dehumanization This book is essential reading for researchers and graduate students in the fields of human rights and semiotics of law

**Philosophy and the Return of Violence** Nathan Eckstrand, Christopher Yates, 2011-02-24 **Human Rights After Deleuze** Christos Marneros, 2022-11-03 This book examines the possibility of creating new ways of existing beyond human rights Multiple socio political crises and the dominance of neoliberal and capitalist policies have led legal and political theorists to question the emancipatory promise of human rights and to reconceptualise human rights in theory and practice The possibility of creating new ways of existing beyond human rights has been left significantly under examined until now Having as its starting point the ferocious yet brief critique on human rights of one of the most prominent French philosophers of the 20th century Gilles Deleuze the book argues that Deleuze's critique is not only compatible with his broader thought but that it has the potential to give a new impetus to the current critiques of human rights within the

disciplinary borders of legal and political theory The book draws upon Deleuze's broader thought but also radical legal and political theory and continental philosophy In particular it investigates and expands on two of Deleuze's most important notions namely those of immanence and becoming and their relation to the philosopher's critique of human rights In doing so it argues that these two notions are capable of questioning the dominant and dogmatic position that human rights enjoy

**Anti-genocide Activists and the Responsibility to Protect** Annette Jansen, 2017-05-08 Although the Genocide Convention was already adopted by the UN General Assembly in 1948 it was only in the late 1990s that groups of activists emerged calling for military interventions to halt mass atrocities The question of who these anti-genocide activists are and what motivates them to call for the use of violence to end violence is undoubtedly worthy of exploration Based on extensive field research *Anti-genocide Activists and the Responsibility to Protect* analyses the ideological convictions that motivate two groups of anti-genocide activists East Timor solidarity activists and Responsibility to Protect R2P advocates The book argues that there is an existential undercurrent to the call for mass atrocity interventions that mass atrocities shock the activists' belief in a humanity that they hold to be sacred The book argues that the ensuing rise of anti-genocide activism signals a shift in humanitarian sensibilities to human suffering and violence which may have substantial implications for moral judgements on human lives at peril in the humanitarian and human rights community This book provides a fascinating insight into the worldviews of activists which will be of interest to practitioners and researchers of human rights activism humanitarian advocacy and peace building

**Feminist Aesthetics and the Politics of Modernism** Ewa Piłowska Ziarek, 2012 Ewa Ziarek fully articulates a feminist aesthetics focusing on the struggle for freedom in women's literary and political modernism and the devastating impact of racist violence and sexism She examines the contradiction between women's transformative literary and political practices and the oppressive realities of racist violence and sexism and she situates these tensions within the entrenched opposition between revolt and melancholia in studies of modernity and within the friction between material injuries and experimental aesthetic forms Ziarek's political and aesthetic investigations concern the exclusion and destruction of women in politics and literary production and the transformation of this oppression into the inaugural possibilities of writing and action Her study is one of the first to combine an in-depth engagement with philosophical aesthetics especially the work of Theodor W. Adorno with women's literary modernism particularly the writing of Virginia Woolf and Nella Larsen along with feminist theories on the politics of race and gender By bringing seemingly apolitical gender-neutral debates about modernism's experimental forms together with an analysis of violence and destroyed materialities Ziarek challenges both the anti-aesthetic subordination of modern literature to its political uses and the appreciation of art's emancipatory potential at the expense of feminist and anti-racist political struggles

Human Rights, Security Politics and Embodiment Aneira J. Edmunds, 2023-12-05 Virtuous institutions such as human rights ones have been neglected by securitization theory's focus on the national state apparatus as the key driver of security politics This book

challenges this assumption showing the ways institutional human rights deemed the most progressive of rights have been complicit in rendering the body vulnerable While the book principally focuses on the treatment of the veiled woman it also considers wider cases involving torture the ultimate removal of control over one's body and biggest transgression of human rights supposed foundational commitment to bodily integrity
