ISO 9000 Quality Systems Auditing George Dennis Green, 1997 This book addresses every aspect of ISO 9000 Quality Systems Auditing Any organization preparing for ISO certification will need to carry out Internal Audits to confirm that its Quality System has been implemented and is effective in achieving the organization's objectives Such auditing also provides opportunities for everyone to make changes to the Quality System so that it can become more efficient Dr Green addresses evaluation of suppliers through second party audits but he also shows how these can be kept to an absolute minimum by the introduction of a systematic method for getting on to an Approved List The mystique surrounding third party audits is removed by detailed explanations of pre audits pre assessments and assessments The attributes of good auditors and important facets of good auditing are discussed Inexperienced and experienced auditors could also benefit from studying the set of core questions prepared for their use BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **1992 Ford Aeromax 120/LLS-LTLS-9000 Trucks Service Manual** Ford Motor Company, 1991
