Lewis, 2016 Combining theories of calculation and property relations and using an array of archival sources this book focuses on the building and decommissioning of state owned defense factories in World War II era Chicago Robert Lewis's rich trove of material drawn from research on more than six hundred federally funded wartime industrial sites in metropolitan Chicago supports three major conclusions First the relationship of the key institutions of the military industrial complex was refashioned by their calculative actions on industrial property The imperatives of war forced the federal state and the military to become involved in industrial matters in an entirely new manner Second federal and military investment in defense factories had an enormous effect on the industrial geography of metropolitan Chicago The channeling of huge lumps of industrial capital into sprawling plants on the urban fringe had a decisive impact on the metropolitan geographies of manufacturing Third the success of industrial mobilization was made possible through the multi scale relations of national and locational interaction National policy could only be realized by the placing of these relations at the local level Throughout Lewis shows how the interests of developers factory engineers corporate executives politicians unions and the working class were intimately bound up with industrial space Offering a local perspective on a city permanently shaped by national events this book provides a richer understanding of the dynamics of wartime mobilization the calculative actions of political and business leaders the social relations of property the working of state industry relations and the making of industrial space      **Popular Mechanics** ,1954-09 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it's practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle      **Cars & Parts** ,2001-07      Motor Auto Repair Manual ,1994      **Popular Science** ,1921-05 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better      *Automobile Digest* ,1929      **Motor Age** ,1939      *Catalogue ...* Montgomery Ward,1927      *Semi Truck Color History* Stan Holtzman,1997      *Black Enterprise* ,2000-06 BLACK ENTERPRISE is the ultimate source for wealth creation for African American professionals entrepreneurs and corporate executives Every month BLACK ENTERPRISE delivers timely useful information on careers small business and personal finance      **The Country Gentleman** ,1928      **Popular Mechanics** ,2000-01 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it's practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle      *Radio & Television News* ,1949 Vol 40 no 2 v 52 no 1 Aug 1948 July 1954 are Radioelectronic engineering
