In their new book *Object Lessons*, Caren, a math educator, and Lynn, an artist and art educator, use a highly visual approach to show students and teachers the art in math and the math in art. Integrating visual arts into math experiences makes the lessons accessible, engaging, and meaningful for a wide range of students. In each chapter, the authors use everyday objects to create rigorous hands-on activities that address key mathematics standards and concepts. Each lesson provides an introduction to the featured object that explains how it connects to key mathematical concepts, a discussion of the artist's art styles and techniques, featured activities organized by
