13	A	28	D
14	C	29	B
15	B	30	A

General Comments

The questions for which most candidates selected the correct answer were 1, 9, 24, 27, and 29. These questions were answered correctly by 70% or more of the candidates. They covered different parts of the syllabus and were set to test different skills.

The questions for which the fewest candidates selected the correct answer were 11, 18 and 21. These questions were answered correctly by fewer than 35% of the candidates. The rest of the questions gave results which were well within the levels expected.

Comments on Specific Questions

Question 11 was answered correctly by 21% of the candidates who chose option D. 1% chose option A, 16% chose option B and 63% chose option C. An increase in economic activity in Dubai would be likely to increase the wages of construction workers in Dubai, a decrease in activity in Dubai would not be likely to do that. The choice, therefore, becomes between option C and option D. A decrease in activity in India (C) would mean that there would be less work and the possibility of more migrant workers moving to Dubai. The supply of workers in Dubai would increase and there would not be the need to raise wages.

Question 18 was answered correctly by 32% of the candidates who chose option C. 26% chose option A, 16% chose option B and 26% chose option D. The average standard of living may be improved if the distribution of income on average was more equal (A), economic growth may cause further employment opportunities and unemployment may fall (B). However, achieving full employment may increase demand and put pressure on supplies which may cause a rise in prices.
