*Numerical Correlation between Impact Factor and Web Ranking of Electronic Scientific Journals Using Regression Analysis* Giorgos Kouropoulos, Γιώργος Κουρόπουλος, 2017-12-15 The present study attempts to examine the numerical correlation between web ranking of electronic scientific journals and impact factor of these journals using the method of regression analysis Regression analysis allows the option of investigating and predicting the numerical relationship between website ranking of scientific journals on the World Wide Web and the value of impact factor of the journals A sample of 57 publishers with 6 272 scientific journals and 50 standalone scientific journals was analyzed during research procedure In this study two different indicators about websites classification on World Wide Web were examined separately for 57 publishers and 50 standalone journals Alexa rank and Statscrops rank The electronic databases through the internet constitute the main information resources of this study about the impact factors The general conclusion that arises is that the impact factor of electronic scientific journals illustrates a very strong positive correlation with classification of websites on the World Wide Web Furthermore it is concluded that the change of web ranking as a function of impact factor is governed by a Gaussian function or rational function with lower Pearson coefficient and presents non linearly correlation Even if there is very strong correlation between impact factor and web rank for electronic journals the prediction of impact factor from web rank is not possible and presents many divergences

**Art of Writing & Publishing in Pharmaceutical Journals** Ajay Semalty, Mona Semalty, 2023-03-01 In academics and research everyone needs publications It has always been a vital requirement in an academic Impact factors as journal metrics detection and avoiding plagiarism Planning executing reporting documenting and presenting the research work including empirical studies Defending thesis useful resources for writing and research USPs of the book are Easy language to the point coverage of topics effective presentation and vital further reading links on every topic Contents Section I Paper Writing 1 Paper Publications in Academic Career 2 Targeting Journals 3 Impact Factor 4 Review Paper Writing 5 Writing a Research Paper 6 Submission Avoiding Rejections 7 Plagiarism Ethics in Publications Section II Thesis Dissertation Execution Writing 8 Introducing Research 9 Planning a Topic 10 Literature Survey 11 Preparing Synopsis 12 Procurements Execution of Work 13 Results and Discussion 14 Empirical or Field Studies 15 Report Writing 16 Presentation of Work Section III Appendices Appendix 1 Funding Agencies Appendix2 Directory of Major Journals Appendix3 Directory of Analytical Service Providers Appendix4 E Resources on Paper Writing Appendix5 Important Software for Research and Writing

**Book Power in Communication, Sociology and Technology** Tereza Khecyoyan, Manolis Koukourakis, Angela Repanovici, 2018-12-31 In 2012 The Library of Congress Washington D C U S A had the initiative of organizing an annual meeting which would disseminate the vision of library leaders on the importance of the book The meeting would gather all the categories involved in the book industry writers publishers editors professors librarians The goal was to create a platform for discussions on how to promote the book as a crucial element for culture and education

enhancement The power of information and its dissemination was discussed within the first edition while keeping the book as a central element in all debates After this first edition the Summit of the book was organized yearly in different locations throughout the world Singapore 2013 France 2014 Egypt 2015 and Ireland 2016 The event had a powerful international impact and in 2017 the 6th summit was hosted in Brasov Romania at the Transilvania University This volume is the collection of the most valuable contributions to the 6th Summit of the Book where experts presented their best practices and expertise in the history and technology of the book knowledge support and book dissemination

**Accounting Journals: Scopus, Web of Science, SCImago** Liudmyla Shkulipa, 2020-03-09 This book is a full guidebook among more than 218 accounting international journals with an evaluation of 3 000 publications for over the last two years It aims to help readers for selecting an appropriate journal for publishing own research in the international arena or to find the required topic for conducting further investigating or to be informed about so large scale science as accounting Here a reader will find detailed information about accounting journals in terms of Scopus Web of Science and SCImago databases In addition there are highlighted accounting journals in terms of IFRS and blockchain concentration in accounting researches nowadays The relevant aims and scope of each journal are also presented Anyway this book is an indispensable assistant for students while getting the Accounting specialization as well as teachers and scientists while conducting empirical researches in the practice and theory of the accounting filed

Data Analysis and Related Applications, Volume 2 Konstantinos N. Zafeiris, Christos H. Skiadas, Yiannis Dimotikalis, Alex Karagrigoriou, Christiana Karagrigoriou-Vonta, 2022-11-01 The scientific field of data analysis is constantly expanding due to the rapid growth of the computer industry and the wide applicability of computational and algorithmic techniques in conjunction with new advances in statistical stochastic and analytic tools There is a constant need for new high quality publications to cover the recent advances in all fields of science and engineering This book is a collective work by a number of leading scientists computer experts analysts engineers mathematicians probabilists and statisticians who have been working at the forefront of data analysis and related applications The chapters of this collaborative work represent a cross section of current concerns developments and research interests in the above scientific areas The collected material has been divided into appropriate sections to provide the reader with both theoretical and applied information on data analysis methods models and techniques along with related applications

**List of Classes of United States Government Publications Available for Selection by Depository Libraries**, 1992 Beyond Power Transitions David C. Kang, Xinru Ma, 2024-10-08 Questions about the likelihood of conflict between the United States and China have dominated international policy discussion for years But the leading theory of power transitions between a declining hegemon and a rising rival is based exclusively on European examples such as the Peloponnesian War as chronicled by Thucydides as well as the rise of Germany under Bismarck and the Anglo German rivalry of the nineteenth and early twentieth centuries What lessons does East Asian history offer for both the power transitions debate and the future of U S

China relations Examining the rise and fall of East Asian powers over 1 500 years Beyond Power Transitions offers a new perspective on the forces that shape war and peace Xinru Ma and David C Kang argue that focusing on the East Asian experience underscores domestic risks and constraints on great powers not relative rise and decline in international competition They find that almost every regime transition before the twentieth century was instigated by internal challenges and even the exceptions deviated markedly from the predictions of power transition theory Instead East Asia was stable for a remarkably long time despite massive power differences because of common understandings about countries relative status Provocative and incisive this book challenges prevailing assumptions about the universality of power transition theory and shows why East Asian history has profound implications for international affairs today *How to Get Published in the Best Entrepreneurship Journals* Alain Fayolle, Mike Wright, 2014-01-31 Competition to publish in the top journals is fierce This book provides entrepreneurship researchers with relevant material and insights to support them in their efforts to publish their research in the most prestigious entrepreneurship outlets a **A Guide to Publishing for Academics** Jay Liebowitz, 2015-04-08 Most academics still wrestle with the publish or perish phenomenon Based on Dr Liebowitz's 25 years serving as the editor in chief of a leading international journal along with insights from some of the most knowledgeable journal editors this book shares key lessons learned to help new professors doctoral students and practitioner scholars

Research Methodology in Bioscience and Biotechnology Kian Mau Goh, 2023-07-28 This monograph offers a comprehensive guide to good research practices and mindsets covering a wide range of topics across 8 chapters Readers will find numerous themes and strategies that can help them develop their research skills and achieve their objectives from effective proposal writing to stress management and upskilling This book explains the purpose process tips and mistakes of writing proposals theses articles and reviews in clear and straightforward language allowing readers to develop good research plans By applying the advice and insights offered in this book students and researchers can improve the quality of their work cultivate research integrity and develop good publication plans write well and reduce rejection rates Research outputs will be more likely to be of high quality if students and researchers are encouraged to cultivate these pieces of advice The focus of the book is not solely on the outcomes of research Rather it also delves into mindset habits adaptability time management stress management recent tools for upskilling planning and execution Throughout the book the author seeks to instill a growth mindset in the readers encouraging them to develop positive research habits and behaviors KPIs particularly publications shall not be used as a reason to erode research integrity and ethnicity therefore plagiarism self citation falsifying data exaggerating findings authorship in publications the use of AI tools CRediT and COPE are discussed This book contains interviews with high profile researchers top management at institutions policy advisers etc whose opinions and advice the readers will find valuable Overall this all in one guide is an essential resource for postgraduate students post doctoral fellows and academics who are struggling to find a survival strategy in the rapidly changing research environment

The book assists readers in developing right mindset planning their research and publications and in achieving their predetermined objectives **Handbook of Bibliometric Indicators** Roberto Todeschini,Alberto Baccini,2016-05-04 At last the first systematic guide to the growing jungle of citation indices and other bibliometric indicators Written with the aim of providing a complete and unbiased overview of all available statistical measures for scientific productivity the core of this reference is an alphabetical dictionary of indices and other algorithms used to evaluate the importance and impact of researchers and their institutions In 150 major articles the authors describe all indices in strictly mathematical terms without passing judgement on their relative merit From widely used measures such as the journal impact factor or the h index to highly specialized indices all indicators currently in use in the sciences and humanities are described and their application explained The introductory section and the appendix contain a wealth of valuable supporting information on data sources tools and techniques for bibliometric and scientometric analysis for individual researchers as well as their funders and publishers **Impact of Global University Ranking Systems on Developing Countries** Onyancha, Omwoyo

Bosire,Tella, Adeyinka,2023-06-01 The emotive discourses on the subject of university rankings are directly linked to the effect of such rankings on the performance of universities throughout the world It has been observed that the top ranked universities attract major financial commitments from the industry the best students quality researchers and a wide range of other quality endowments such as equipment libraries and laboratories It is not surprising that the ranking of universities has gained popularity and become a significant factor shaping not only the reputation of universities but also the performance of said institutions around the world including the developing countries Impact of Global University Ranking Systems on Developing Countries presents a collection of perspectives from scholars and other stakeholders on the impact of the global ranking systems on developing countries The book is an additional resource for discussion and discourse as far as the global university ranking systems are concerned and opens new frontiers for further research Covering key topics such as assessment ethics and academic freedom this premier reference source is ideal for administrators policymakers researchers scholars academicians practitioners instructors and students *Separate but Faithful* Amanda

Hollis-Brusky,Joshua C. Wilson,2020-10-01 Fueled by grassroots activism and a growing collection of formal political organizations the Christian Right became an enormously influential force in American law and politics in the 1980s and 90s While this vocal and visible political movement has long voiced grave concerns about the Supreme Court and cases such as Roe v Wade they weren t able to effectively enter the courtroom in a serious and sustained way until recently During the pivot from the 20th to the 21st century a small constellation of high profile Christian Right leaders began to address this imbalance by investing in an array of institutions aimed at radically transforming American law and legal culture In *Separate But Faithful* Amanda Hollis Brusky and Joshua C Wilson provide an in depth examination of these efforts including their causes contours and consequences Drawing on an impressive amount of original data from a variety of sources they look at

the conditions that gave rise to a set of distinctly Christian Worldview law schools and legal institutions Further Hollis Brusky and Wilson analyze their institutional missions and cultural makeup and evaluate their transformative impacts on law and legal culture to date In doing so they find that this movement while struggling to influence the legal and political mainstream has succeeded in establishing a Christian conservative beacon of resistance a separate but faithful space from which to incrementally challenge the dominant legal culture Both a compelling narrative of the rise of Christian Right lawyers and a trenchant analysis of how institutional networks fuel the growth of social movements *Separate But Faithful* challenges the dominant perspectives of the politics of law in contemporary America

**How to Publish in Biological Sciences** John Measey, 2022-07-29 This book is a guide specifically for Early Career Researchers on how to publish in the Biological Sciences whether that be your first manuscript or if you re already experienced there s something for everyone Following on from *How to Write a PhD in Biological Sciences A Guide for the Uninitiated* it will guide you through taking your manuscript to publication in peer reviewed journals and disseminating your research more broadly It talks you through the peer review process including how to respond to reviewers comments the meaning and importance of Impact Factors and how to get citations It also explores the challenges in the academic community around Open Access and other debates including transparency overlay journals paywalls publication bias predatory journals and the dangers of bullying Whether you are a student just completing your studies or a supervisor struggling with rejections this book will provide the insider information you need to get ahead

**Management and Business Research** Mark Easterby-Smith, Lena J.
