escuelas de negocio españolas Francisco Javier Sastre Segovia, 2022-07-05 En los últimos años el sector de la educación superior en España ha aumentado al igual que lo ha hecho en otros países de su entorno Este crecimiento que ha tenido lugar tanto en el ámbito universitario como en el de los estudios de postgrado ha afectado a los programas y al número de estudiantes evidenciándose tanto en las universidades públicas como en las privadas Sin embargo según datos del Ministerio de Educación Cultura y Deporte 2014 aun cuando este aumento se ha mantenido se observa una ralentización del ritmo de crecimiento Las escuelas de negocio españolas no han sido ajenas a esta tendencia del mercado Desde el año 2003 la cifra de negocios ha venido creciendo si bien recientemente especialmente desde 2008 esta progresión ha sido menor incluso hasta producirse una disminución en los dos últimos años La facturación acumulada del sector es de 575 millones de euros al cierre del ejercicio 2013 DBK S A 2013 Tradicionalmente las escuelas de negocio españolas han tenido un gran prestigio a nivel internacional apareciendo en los rankings de numerosas publicaciones bien posicionadas como se verá posteriormente De hecho su público objetivo aunque en su gran mayoría son españolas tiene un carácter internacional Es una realidad que algunas de las escuelas españolas figuran entre las mejores a nivel mundial lo que supone la apertura a mercados que están fuera de las fronteras españolas Como aspecto relevante se debe considerar el mercado potencial que supone para los hispanoparlantes que deseen cursar programas en escuelas de prestigio en idioma español Esto constituye una importante fuente de ventaja competitiva respecto a otras escuelas de habla fundamentalmente inglesa En este sentido conviene hacer referencia a los rankings que clasifican estas escuelas En primer lugar hay que señalar que algunos de estos rankings se refieren a un determinado programa el Máster en Dirección de Empresas o como se denomina habitualmente en inglés Master of Business Administration MBA No siempre este ranking que clasifica los mejores MBA está en consonancia con los que se refieren a otros de Executive Education o a los programas a medida que se diseñan e imparten según las necesidades y características de las organizaciones que lo demandan Además los rankings no coinciden al cien por cien entre sí ya que en función de los criterios utilizados para su valoración varían los resultados En todo caso no hay grandes diferencias a la hora de clasificar a nivel mundial los mejores programas o escuelas de negocio entendiendo por tales aquellas instituciones académicas de enseñanza superior en las que se imparten programas de gestión empresarial tales como Administración Economía Finanzas Marketing o Estrategia Un ejemplo de la relevancia de las escuelas españolas se manifiesta en las publicaciones más reconocidas a nivel internacional como son las que publican los diarios Financial Times² y The Wall Street Journal³ Son numerosas las organizaciones que elaboran rankings con distinto propósito u objetivo a evaluar pero en la gran mayoría algunas escuelas españolas se sitúan en lo más alto como refleja la organización especializada en Masters QS Top MBA en su informe para los años 2013 2014⁴ siendo España el país europeo con mayor presencia en este ranking y cuenta con tres firmas entre los 25 mejores MBA con modalidad a tiempo completo del mundo Según dicho informe entre las escuelas que tienen más reconocimiento a nivel internacional se encuentran tres españolas IESE Instituto de Empresa IE y Esade Son las

tres grandes referentes en España y consolidadas entre las mejores a nivel europeo y mundial. El panorama de las escuelas de negocio españolas no se limita a las mencionadas anteriormente. De hecho, en España hay más de 60 escuelas de negocio⁵ que imparten formación presencial y que gozan de un reconocimiento tanto nacional como internacional importante. Sin embargo, no todas ellas, como se verá posteriormente, están en la misma situación. La evolución de la cifra de negocios de las escuelas españolas ha pasado de 406 millones de euros en 2003 a 575 millones en el año 2013 (DBK S.A. 2013). Esto ha supuesto un crecimiento importante, sin embargo, tal como se ha indicado anteriormente, este ritmo de crecimiento se ha visto ralentizado en los últimos ejercicios, donde incluso se ha producido una ligera contracción.

Handbook of Education Policy Research Lora Cohen-Vogel, Peter Youngs, Janelle Scott, 2025-07-17. The second edition of the Handbook of Education Policy Research, the largest volume published in AERA's history, addresses a variety of policy and contextual issues in early childhood, K-12, and postsecondary education that have received extensive empirical attention during the past 15 years. With the pandemic and social turmoil as a backdrop, the editors build on the breadth and depth of the first edition while expanding the scope of the project to include subjects, methods, theories, and analyses that have contributed powerfully to the study of education policy and politics in the 2010s and 2020s. The field has become more comprehensive and inclusive, and the authors represent a diversity of racial, ethnic, and gender identities and intellectual and disciplinary orientations. Most chapters come from multiple authors, reflecting the multi-sourced development of research in education policy since the first volume was published. This compilation consists of 70 chapters and nine commentaries that map past, present, and future directions of the field and richly attend to critical issues of interest to students, researchers, policy makers, and practitioners.

Sustainable Peace in Northeast Asia Yong-Shik Lee, 2023-09-05. Sustainable Peace in Northeast Asia examines the causes of lasting and complex tensions in the region from underlying political, historical, military, and economic perspectives, discusses their historical development, and political and economic implications for the world, and explores possible solutions to build lasting peace. The book is unique in that it approaches the topic from the historical perspective of each constituent country in the region. Major global powers such as the United States and Russia have also closely engaged in the political and economic affairs of this region through a network of alliances, diplomacy, trade, and investment. The book also discusses the influence of these external powers over the crisis, their political and economic objectives in the region, their strategies, and the dynamics that their engagement has created. Both South Korea and North Korea have sought reunification of the Korean peninsula, which will have a substantial impact on the region. The book examines its justification, feasibility, and effects for the region. The book discusses the role of Mongolia in the context of the power dynamics in Northeast Asia. A relatively small country in terms of its population, Mongolia has rarely been examined in this context. Sustainable Peace in Northeast Asia makes a fresh assessment of its potential role.
