The Public in Law Haris Psarras, Dr Christopher McCorkindale, Dr Claudio Michelon, Mr Gregor Clunie, 2013-02-28 Bringing together established academics and new researchers the chapters in this collection interrogate the operation of the public in a range of different legal illegal and alegal spaces The key question which frames the contributions is whether and in what manner the public operates as an interface between law and society allowing the interests and opinions of the population at large to be represented and reflected in legal discourse such that collectively generated imperatives may be imposed upon political and economic actors Multi disciplinary in its approach the volume reflects an understanding that there is more to the role of the public in relation to law than the conventional demarcation of the field of public law and that this relationship is open to comment from a wide range of actors

Preventing Regulatory Capture Daniel Carpenter, David A. Moss, 2013-10-21 When regulations or lack thereof seem to detract from the common good critics often point to regulatory capture as a culprit In some academic and policy circles it seems to have assumed the status of an immutable law Yet for all the ink spilled describing and decrying capture the concept remains difficult to nail down in practice Is capture truly as powerful and unpreventable as the informed consensus seems to suggest This edited volume brings together seventeen scholars from across the social sciences to address this question Their work shows that capture is often misdiagnosed and may in fact be preventable and manageable Focusing on the goal of prevention the volume advances a more rigorous and empirical standard for diagnosing and measuring capture paving the way for new lines of academic inquiry and more precise and nuanced reform
