Engineering Jiuping Xu, 2025-04-27 Management Science and Engineering MSE plays an essential role in modern society. In particular, the emergence of efficient and innovative management tools has greatly influenced the progress of management science in engineering research. Since research is critical to the dissemination of cutting edge methods, journal evaluation and classification is essential for scientists, researchers, engineers, practitioners, and graduate students. The goal of this book is to identify the major research categories in MSE and to evaluate and classify each MSE journal. This book was compiled through the combined efforts of members of scientific committees, many of whom are editors in chief of the most relevant journals, academics, researchers from different countries, and members of professional societies. It is aspirational for scientists, researchers, practitioners, engineers, graduate and advanced undergraduate students in the fields of engineering management, civil engineering, industrial engineering, environmental engineering, energy engineering, information engineering, and agricultural engineering. *PRO 15: 5th RILEM Symposium on Fibre-Reinforced Concretes (FRC) - BEFIB' 2000* Pierre

Rossi, Gilles Chanvillard, 2000 **Strengthening Design of Reinforced Concrete with FRP** Hayder A.

Rasheed, 2014-12-16 This textbook establishes the art and science of strengthening design of reinforced concrete with FRP beyond the abstract nature of the design guidelines. It addresses material characterization, flexural strengthening of beams and slabs, shear strengthening of beams, and confinement strengthening of columns. It discusses the installation and inspection of FRP as externally bonded or near surface mounted composite systems for concrete members. It provides innovative design aids based on ACI 440 code provisions, end of chapter questions, references for further study, and a solutions manual with qualifying course adoption.
