Electronic Conference on Sensors and Applications held on 15-30 November 2018 on sciforum.net, an online platform for hosting scholarly e-conferences and discussion groups. In this 5th edition of the electronic conference, contributors were invited to provide papers and presentations from the field of sensors and applications at large, resulting in a wide variety of excellent submissions and topic areas. Papers which attracted the most interest on the web or that provided a particularly innovative contribution were selected for publication in this collection. These peer-reviewed papers are published with the aim of rapid and wide dissemination of research results, developments, and applications. We hope this conference series will grow rapidly in the future and become recognized as a new way and venue by which to electronically present new developments related to the field of sensors and their applications.

Laboratory Manual for the Detection of Poisons and Powerful Drugs Wilhelm Autenrieth, 1928 **Ideas for a Better World: A Technologist's Blueprint** Chinmoy Mukherjee, 2025-06-23

Originally published in 2017 as *Ideas to Change The World*, the first edition of this book discussed pressing problems faced by both developed and developing nations, offering creative solutions for its time. However, the technological landscape has shifted dramatically. The rise of artificial intelligence, the Internet of Things (IoT), blockchain, ubiquitous high-speed connectivity, and advanced robotics has unlocked possibilities that were once the realm of science fiction. This enriched 2025 edition revisits the original problems and introduces new ones, proposing a fresh wave of solutions powered by today's cutting-edge technologies. The goal is not just to solve problems but to fundamentally rethink how our societies function. From creating truly intelligent cities to ensuring personal security and promoting global equity, the ideas within this book are designed to inspire a new generation of innovators, entrepreneurs, and policymakers.
