Hens-Piazza,2017-07-15 Though the five poems of Lamentations undoubtedly refer to the Babylonian siege and destruction of Jerusalem in 587 BCE the multiple voices that narrate unspeakable suffering and labor to make sense of the surrounding horror do so at women s expense In the opening chapters a prevailing metaphor of Jerusalem as a woman Woman Zion portrays a weeping widow abandoned and alone who soon becomes the target of blame for the downfall of the city and its inhabitants Vague sexual improprieties craft the basis of her sinfulness seemingly to justify her immense suffering as punishment The damning effect of such a metaphor finds company in subsequent accounts of women young girls and mothers all victims of the destruction recorded therein But this feminist interpretation of Lamentations does not stop at merely documenting the case against women it also demonstrates how such texts can serve as sources of strength by lifting up portraits of courageous resistance amid the rubble of misogynist landscapes [A Biblical Approach to Personal Suffering](#)

Walter C. Kaiser Jr.,2003-10-01 **Playful Letters** Erika Mary Boeckeler,2017-11 Alphabetic letters are ubiquitous multivalent and largely ignored Playful Letters reveals their important cultural contributions through Alphabetics a new interpretive model for understanding artistic production that attends to the signifying interplay of the graphemic phonemic lexical and material capacities of letters A key period for examining this interplay is the century and a half after the invention of printing with its unique media ecology of print manuscript sound and image Drawing on Shakespeare anthropomorphic typography figured letters and Cyrillic pedagogy and politics this book explores the ways in which alphabetic thinking and writing inform literature and the visual arts and it develops reading strategies for the letterature that underwrites such cultural production Playful Letters begins with early modern engagements with the alphabet and the human body an intersection where letterature emerges with startling force The linking of letters and typography with bodies produced a new kind of literacy In turn educational habits that shaped letter learning and writing permeated the interrelated practices of typography orthography and poetry These mutually informing processes render visible the persistent crumbling of words into letters and their reconstitution into narrative poetry and image In addition to providing a rich history of literary and artistic alphabetic interrogation in early modern Western Europe and Russia Playful Letters contributes to the continuous story of how people use new technologies and media to reflect on older forms including the alphabet itself **Postcolonial**

Commentary and the Old Testament Hemchand Gossai,2018-11-01 This is the first volume to provide a wide range of postcolonial interpretations of and commentaries upon significant texts in the Hebrew Bible The volume intersects with the work of the key theorists in postcolonial studies such as Fanon Senghor Said and Spivak as well as with scholars such as

Sugirtharajah Kwok Pui lan and Segovia who have applied this theory to biblical studies Texts have been chosen specifically for their relevance to postcolonial discourse rather than seeking to cover each biblical document This volume is designed to demonstrate how historical criticism postmodernism and the important concerns of postcolonial readings may be integrated to obtain an informed explanation of the Hebrew Bible and the writings of early Judaism The chapters are written by scholars who represent a spectrum of national indigenous and diasporic contexts Taken together these perspectives and the interpretations they yield represent a continued expansion of the manner in which Old Testament texts are read and interpreted through postcolonial lenses reminding readers that the interpretive trajectories of these texts are almost inexhaustible As such the volume serves as not only an addition to ongoing scholarship on postcolonialism but also as an expansion of the horizon for dialogue
