*Celebrating Poetry Across the K-12 Curriculum* Napoli, Mary,Day, Deanna,Ward, Barbara A.,2025-07-16 Poetry provides opportunities to explore the universal and common experiences that connect us as human beings When teachers infuse poetry into their classroom it can foster compassion develop interdisciplinary connections and support literacy instruction However not all teachers use poetry in their classroom either because they are not aware of the value of poetry or because they have not had positive experiences with poetry Given the importance of sharing poetry with today s youth educators must feel confident in

evaluating well written poetry and how to weave poetry from award winning poets to support interdisciplinary connections Celebrating Poetry Across the K 12 Curriculum aims to ensure that poetry for children is not neglected as part of the curriculum and to help educators feel more confident in their understanding of children s poetry its relevance to children s lives and its importance to supporting pedagogical connections Featuring interviews with well known poets this resource also showcases the latest pedagogical and scholarly research supporting the integration of poetry in the K 12 classroom Covering topics such as science content romanticism and diversity recognition this book is an excellent resource for educators classroom teachers literacy specialists librarians professionals researchers scholar academicians and more *Hoodwinked* Karen Ehman,Ruth Schwenk,2015-11-03 Moms have been hoodwinked tricked into believing lies that keep them from not only enjoying motherhood but forging friendships with other moms who might tackle the tasks of motherhood differently Myths such as Mothering is natural easy and instinctive cause moms to feel like failures if they have questions or apprehensions in raising their kids Operating from the premise that The way I mother is the right and only way puts up fences between moms instead of building bridges of encouragement between them Lies such as I am my child s choices tempt moms to mistakenly believe that if their child makes a wrong choice then they in turn must be a bad mom In their encouraging we ve been there style Karen Ehman and Ruth Schwenk enable mothers to Identify the ten myths of motherhood our current culture perpetuates Replace the lies with the truth of what God says in the Bible about mothering Acquire practical tools to help them form new and improved thought patterns and healthy behaviors Forge healthy supportive relationships with other moms of all ages and stages Confidently embrace the calling of motherhood as they care for their families in their own unique way A six session video Bible study for group or individual use is also available *Super Minds Level 6 Student's Book with DVD-ROM* Herbert Puchta,Günter Gerngross,Peter Lewis-Jones,2013-06-06 An exciting seven level course that enhances young learners thinking skills sharpening their memory while improving their language skills Written by a highly experienced author team Super Minds enhances your students thinking skills improving their memory along with their language skills This Level 5 Student s Book includes activities to develop language creatively functional language practice through communicative exercises and stories and cross curriculum sections that explore social values The fabulous DVD ROM features documentaries interactive games lively songs with karaoke versions and fun videokes that allow students to record themselves and play different roles Class Audio CDs including audio from the Student s Book and Workbook are sold separately **Artificial Intelligence in the Primary Classroom** Gemma Clark,2024-05-28 Artificial intelligence AI has sparked a huge debate among teachers and school leaders Many questions arise about the trajectory of this new technology and where it will take us How will we differentiate between student authored work and AI generated content Will it lead to a loss of creativity and critical thinking skills What impact will it have on the dynamics of learning and teaching within schools These are all crucial topics for discussion yet AI has already become part of our reality and Gemma

Clark firmly believes that embracing its potential is in our best interests. In an era defined by technological advances, Artificial Intelligence in the Primary Classroom stands as an indispensable resource that holds the key to transforming teaching and learning. For educators burdened by bureaucratic tasks that divert precious time from actual teaching, this book offers a lifeline. It demonstrates how AI-powered tools can alleviate administrative burdens, enabling teachers to focus on the important job of nurturing young minds and to channel their energy and resources into higher impact activities such as crafting tailored learning experiences, giving children personalised feedback, and improving engagement. From time-consuming tasks like lesson planning, assessment marking, and automating report writing processes to facilitating content creation, the book details tangible ways in which AI can streamline workflows, improve teaching, and restore work-life balance. Other examples include Spelling Lessons: Save time when planning your spelling lessons by using AI to automatically generate a comprehensive list of phonemes or sounds suitable for teaching young children; Mindfulness in the Classroom: If you are interested in incorporating mindfulness games and activities to assist children in relaxation and focus, AI can provide valuable suggestions for fostering pupil and staff wellbeing; PE Lessons: You don't have to be an expert in sports to teach PE. Whether it's tennis, football, rugby, or running, AI can offer suggestions for activities, warm-ups, and cool-downs to use in your PE lessons; Art Lessons: AI can be an excellent resource for planning art lessons, especially when seeking suggestions to emphasize one of the eight elements such as line, shape, form, colour, value, texture, space, and value; Maths Lessons: As with spelling, AI can significantly reduce the time spent on creating maths questions and simplify the process of differentiation. Artificial Intelligence in the Primary Classroom is filled with practical strategies, engaging activities, and useful tips and tricks that will save teachers time and energy. Gemma provides transferrable ideas and lesson plans with step-by-step instructions that can be adapted and used in secondary settings as well as primary. Backed up by real-world examples throughout, this book empowers teachers to embrace AI as a tool in fostering enhanced learning experiences while also reclaiming invaluable time for pedagogical creativity. Suitable for primary school teachers of all levels of experience.

**Practicing Critical Oral History** Christine K. Lemley, 2017-09-08. Practicing Critical Oral History: Connecting School and Community provides ways and words for educators to use critical oral history in their classroom and communities in order to put their students and the voices of people from marginalized communities at the center of their curriculum to enact change. Clearly and concisely written, this book offers a thought-provoking overview of how to use stories from those who have been underrepresented by dominant systems to identify a critical topic, engage with critical processes, and enact critical transformative justice outcomes. Critical oral history both writes and rights history so that participants, both interviewers and narrators in critical oral history projects, aim to contextualize stories and make the voices and perspectives of those who have been historically marginalized heard and listened to. Supplemented throughout with sample activities, lesson plan outlines, tables, and illustrative figures, Practicing Critical Oral History: Connecting School and Community is an essential resource for all those interested in
