

It was Jo who noticed it first. She had felt a bad cold coming on for a couple of days, but half an hour after having some milk from Flossie - their new cow - she felt back to normal. Was there something special about the milk?

## Acrostic Poem On Farmer

**Peter Bartrip**

### **Acrostic Poem On Farmer:**

My Tongue is My Own: A Life of Gwen Harwood Ann-Marie Priest,2020-11-17 A masterful portrait of a major Australian writer her incandescent poetry and her battles to be heard in a male dominated literary establishment Winner of the 2023 National Biography Award The first biography of Gwen Harwood 1920 1995 one of Australia s most significant and distinctive poets Harwood is renowned for her brilliance but loved for her humour rebellion and mischief A public figure by the end of her life she was always deeply protective of her privacy and even now some twenty six years after her death little is known of the experiences that gave rise to her extraordinary poems This book follows Harwood from her childhood in 1920s Brisbane to her final years in Hobart in the 1990s It traces how a lively sardonic and determined young woman built a career in the conservative 1950s blasting her way into the patriarchal strongholds of Australian poetry Harwood refused to be bound by convention liberating herself to use her word before women s lib existed Yet she also struggled for much of her life to combine marriage and motherhood with her creative ambitions In this sense she is a twentieth century everywoman She is also a unique and powerful presence in Australian literary history a poet who challenged orthodoxies and spoke in a remarkable range of voices This illuminating moving biography reveals a deeply passionate figure both at odds with her time and deeply of it and reclaims and celebrates this important Australian writer Gwen Harwood that excellent poet and critic deserves a sympathetic and lively biography Ann Marie Priest to her credit has just written that book Ann Blainey winner of 2009 National Biography Award Read this meticulous biography with Harwood s poetry in hand and chase down every poem that Priest cites The Sydney Morning Herald Ann Marie Priest has captured completely the sprite like nature of one of Australia s finest poets Through these pages the great poet feels so alive Judges comments National Biography Award

**Monthly ,1889     Myxomatosis** Peter Bartrip,2008-07-30 Myxomatosis a viral disease of European wild rabbits was discovered in South America in the 1890s It was deliberately introduced in Australia and France in the 1950s and reached Britain in 1953 Within a year it had killed tens of millions of rabbits from Kent to the Shetlands The British reaction to myxomatosis was mixed members of the public reared on the tales of Beatrix Potter were appalled With meat still rationed consumers deplored the loss of a cheap and nutritious foodstuff Many farmers on the other hand welcomed the rabbit s demise as a serious agricultural pest and actively spread the disease However some lost their livelihood through the spread

of Myxomatosis such as rough shooters who regretted the loss of prey and hatters and furriers who mourned the unavailability of the fur on which they depended Rabbits also had champions within the establishment including Winston Churchill and the Archbishop of York who both regarded myxomatosis as an abomination Winston Churchill was personally influential in making its deliberate transmission a criminal offence Even the farmers and foresters who applauded the rabbit's demise often had qualms about a disease that inflicted such a horrible death Myxomatosis presented the authorities with difficult questions should they try to contain the disease encourage it or do nothing Should they take advantage of rabbit depopulation and try to exterminate the animal Britain's myxomatosis outbreak has hitherto attracted little historical attention notwithstanding parallels with other recent animal disease crises In the first book dedicated to this subject Peter Bartrip examines how the disease reached Britain He argues it was not the government who was responsible as many thought at the time but instead identifies the individual who may have deliberately brought myxomatosis over from France Bartrip tracks the spread of the virus throughout the country and considers the response of government and other bodies and the impact of rabbit depopulation on agriculture and the natural environment The cultural significance of myxomatosis in Britain raises topical and controversial issues relating to veterinary medicine animal rights the interface between human and animal health the ethics of pest control by biological means and the politics of environmental meddling These are important considerations if we are to learn lessons from more recent animal disease crises such as foot and mouth BSE and H5N1 avian influenza
