Robert L. Scardamalia,2020-08-05 Today concerns about the financial stability of Social Security trends in disability health care costs and the supply of caregivers are all driven by the coming explosion in the number of people over the age of 65

Aging in America focuses on the economic and demographic portrait of the senior population and can provide a context for

analysis of broader population issues It provides a wide range of characteristics of the older population including age composition race and Hispanic origin educational attainment living arrangements veteran status employment and income health insurance disability and housing characteristics Extracting comparative information from the Census Bureau's databases can be difficult and time consuming Aging in America provides comparative data on a variety of topics in a single easy to use volume Some of the benefits of Aging in America include It provides a cross section of socio economic characteristics focused on the aging population for commonly researched geographic areas states counties cities metropolitan and micropolitan areas and congressional districts The tables are structured to allow easy comparisons across geographic areas and easy profiling of characteristics

Life in Rural America Robert L. Scardamalia, 2020-11-06 America's urban population has been growing while rural areas are declining especially after the great recession This is not new as rural decline has been affected by the long term shift from an agriculturally based economy to a service based economy However the preference of many millennials for urban settings exacerbates the issue and reduces the rural community's ability to replenish the population Life in Rural America A Statistical Portrait presents economic and demographic indicators of the rural population and help users understand the community and geographic differences that rural communities experience The book will be used as a reference source for data users looking to understand community and geographic differences in the rural component of the nation's population
