*Surfing in the Movies* John Engle, 2015-10-05 Surfing has fascinated filmmakers since Thomas Edison shot footage of Waikiki beachboys in 1906 Before the 1950s surf craze surfing showed up in travelogues or as exotic background for studio features The arrival of Gidget 1959 on the big screen swept the

sport into popular culture but surfer filmmakers were already featuring the day's best surfers in self-narrated two-reelers. Hollywood and independent filmmakers have produced about three dozen surf films in the last half century including the frothy Beach Party movies *Point Break* (1991) and *Chasing Mavericks* (2012). *Wait Five Minutes* Shelley Ingram, Willow G. Mullins, 2023-05-18 Contributions by Emma Frances Bloomfield, Sheila Bock, Kristen Bradley, Hannah Chapple, James Deutsch, Mirt Hanley, Christine Hoffmann, Kate Parker, Horigan, Shelley Ingram, John Laudun, Jordan Lovejoy, Lena Marander, Eklund, Jennifer Morrison, Willow G. Mullins, Anne Pryor, Todd Richardson, and Claire Schmidt. The weather governs our lives. It fills gaps in conversations, determines our dress, and influences our architecture. No matter how much our lives may have moved indoors, no matter how much we may rely on technology, we still monitor the weather. *Wait Five Minutes: Weatherlore in the Twenty-First Century* draws from folkloric, literary, and scientific theory to offer up new ways of thinking about this most ancient of phenomena. Weatherlore is a concept that describes the folk beliefs and traditions about the weather that are passed down casually among groups of people. Weatherlore can be predictive, such as the belief that more black than brown fuzz on a woolly bear caterpillar signals a harsh winter. It can be the familiar commentary that eases daily social interactions, such as asking, "Is it hot or cold enough for you?" Other times it is simply ubiquitous. If you don't like the weather, wait five minutes and it will change. From detailing personal experiences at picnics and suburban lawns to critically analyzing storm stories, novels, and flood legends, contributors offer engaging multidisciplinary perspectives on weatherlore. As we move further into the twenty-first century, an increasing awareness of climate change and its impacts on daily life calls for a folkloristic reckoning with the weather and a rising need to examine vernacular understandings of weather and climate. Weatherlore helps us understand and shape global political conversations about climate change and biopolitics at the same time that it influences individual, group, and regional lives and identities. We use weather, and thus its folklore, to make meaning of ourselves, our groups, and quite literally, our world.

**Urban Subversion and the Creative City** Oli Mould, 2015-03-27 Check out the author's video to find out more about the book: <https://vimeo.com/124247409>. This book provides a comprehensive critique of the current Creative City paradigm with a capital C and argues for a creative city with a small c via a theoretical exploration of urban subversion. The book argues that the Creative City with a capital C is a systemic requirement of neoliberal capitalist

urban development and part of the wider policy framework of creativity that includes the creative industries and the creative class and also has inequalities and injustices in built The book argues that the Creative City does stimulate creativity but through a reaction to it not as part of it Creative City policies speak of having mechanisms to stimulate individual collective or civic creativity yet through a theoretical exploration of urban subversion the book argues that to be truly creative is to be radically different from those creative practices that the Creative City caters for Moreover the book analyses the role that urban subversion and subcultures have in the contemporary city in challenging the dominant political economic hegemony of urban creativity Creative activities of people from cities all over the world are discussed and critically analysed to highlight how urban creativity has become co opted for political and economic goals but through a radical reconceptualisation of what creativity is that includes urban subversion we can begin to realise a creative city with a small c
