SYNOPSIS

The *Manual* is in three parts. First is the standard, "Details and Detailing of Concrete Reinforcement (ACI 315-99)." This document is divided into three sections: one addressed to the engineer; one to the detailer; and the third provides tables and figures. It attempts to define the responsibilities of both engineer and detailer, and establishes standards of practice for showing reinforcement details in both engineering and placing drawings. The second part of the *Manual* is the report, ACI 315R-04, "Manual of Structural and Placing Drawings for Reinforced Concrete Structures." It is a selection of foldout drawings accompanied by commentary, for both highway and nonhighway reinforced structures. The third part of the *Detailing Manual* consists of supporting reference data.

Keywords: beams (supports); bending (reinforcing steel); bridges (structures); buildings; columns (supports); computers; concrete construction; concrete slabs; detailing; drafting (drawing); engineering drawings; fabrication; floor systems; foundations; hooked reinforcement; precast concrete; prestressed concrete; reinforced concrete; reinforcing steel; splicing; stirrups; structural design; ties (reinforcement); tolerances (mechanics); walls; welded wire fabric.

This document is available as a separate publication.
