Christian Church: Mediaeval Christianity, from Gregory I to Gregory VII, A.D. 590-1073 Philip Schaff,1910

Biblical Hebrew Poetry by David Mark Emanuel is an essential language resource for understanding Hebrew poetry in the Hebrew Bible The textbook describes with examples the range of poetic techniques employed by the biblical poets encompassing all poetic texts in the Hebrew Bible including the psalms wisdom and prophetic literature and poetic lines embedded within Hebrew prose The book is organized into five main sections beginning with a robust introduction on the idea of Hebrew poetry and where it is dispersed throughout the Hebrew Bible Three primary chapters follow addressing Masoretic lexical and morphological features structural poetics and specific Hebrew poetics The book concludes with a summary chapter and two helpful appendices A Primer of Biblical Hebrew Poetry is intended for upper level undergraduate students and seminary students who have already begun learning the Hebrew language Emanuel s clear explanations and examples are intended to support classroom teaching on Hebrew poetry whether in a Hebrew readings class or in the context of book studies that include Hebrew poetry **Developing Learning Skills Through Children's Literature** Mildred

Laughlin,Letty S. Watt,1986 This book suggests ideas for sharing literature that may be utilized in developing a scope and sequence of literature experiences for children in grades K 5 For primary grades K 2 the activities are primarily arranged through sharing the works of a particular author or illustrator Through this deliberate exploration the child begins to know that person as a friend S he is excited about new books by that same author or illustrator and discusses books on a level not

often achieved if authors are approached only haphazardly Those included represent a variety of classic and current authors and illustrators too good to miss who have made a particular contribution to literature for young people

The Sibyl and Her Scribes Anke Holdenried, 2017-05-15 The Sibylla Tiburtina is a Latin prophecy attributed to a prophetess from classical antiquity It concludes with an account of the End of History involving the coming of the Antichrist and his battle with a Last World Emperor Approximately 100 manuscripts written between the mid 11th and the 16th centuries survive which testify to the Tiburtina s immense popularity in the medieval West as such the Tiburtina is a key text for understanding medieval apocalypticism and occupies an important place in the intellectual history of the Middle Ages However studies of the manuscripts and the history of the text have been largely neglected in comparison with other similar works so little is currently known about who copied and read the prophecy Dr Holdenried s research fills this gap This study is based on an examination of all surviving manuscripts and includes an analysis of the textual material which accompanies the Tiburtina a survey of titles and annotations as well as research on variant texts including several hitherto unknown Modern historiography regards the Tiburtina solely as a vehicle for expressing contemporary political concerns triggered by crises thought to herald the End of the World This book provides a much more varied picture and offers a new approach to the Tiburtina by placing it for the first time in the context of medieval traditions which saw Sibylline prophecy as independent non Christian evidence of Christ s life and as confirmation of His divinity As is shown these traditions had a major impact on the reception of the Tiburtina The book concludes with a repertory of the manuscripts together with brief outlines of individual textual traditions as represented in groups of manuscripts which will constitute a valuable reference source for other scholars

Tehiyyat Ha-Metim Harry Sysling, 1996 The study deals with all those passages in the Palestinian Targums the Aramaic translations of the Pentateuch that refer to the Resurrection of the Dead Of central interest in it is the question to what extent the targumic traditions on a future resurrection of the body or on the fate of the soul after death agree with or differ from corresponding traditions in rabbinic sources With a few exceptions the relation between targumic traditions and rabbinic sources has been neglected in targumic studies of the last decades This may have been caused by the questionable assumptions that a the Aramaic of the Palestinian Targums represents the spoken Aramaic of Palestine in the New Testament period b the Palestinian Targums contain an important number of early pre Christian traditions and c the Palestinian Targums are popular in origin being written in the vernacular in contrast with the scholastic authoritative expositions in the learned rabbinic sources Harry Sysling first offers a survey of these and other important issues in targumic research of the past and of recent opinions on character origin and interrelationship of the Palestinian Targums In the following chapters the author makes a

careful analysis of those passages in the Palestinian Targums that directly by the use of specific terminology or indirectly by the use of metaphors refer to the resurrection of the body and to the fate of the body and or soul after death
