Shimomura,John Page,Hiroshi Kato,2016-01-26 Once the world s largest ODA provider contemporary Japan seems much less visible in international development However this book demonstrates that Japan with its own aid philosophy experiences and models of aid has ample lessons to offer to the international community as the latter seeks new paradigms of development cooperation     Investment Promotion Agencies and Foreign Direct Investment Martin G. Kaspar,2025-09-23

This book discusses the often underestimated role of investment promotion agencies IPAs in attracting foreign direct investment FDI Analysing the subject not only along theoretical lines and from the perspective of IPAs and governments but also through the eyes of practitioners and corporate investors it charts a more holistic picture of the FDI decision making process and its subsequent implementation An in depth analysis of national and regional IPA structures and investment promotion practises provides the reader with a broad understanding of state of the art investment promotion By adding the corporate managers perspective the reader gets a first hand impression of how widely known IPAs are in the corporate world which IPA services are sought after and which are considered less useful For corporate managers FDI projects are complex and often risky and to understand their expectations towards IPAs should further the current policy debate Given the significant sums of money spent each year on FDI incentives and given that the fortunes of nation states can be turned around on FDI as Ireland and Singapore have conclusively demonstrated a more grounded analysis of investment policies and promotion strategies is

increasingly taking centre stage in policy debate The book fills a gap by providing operationally useful answers to corporate managers and thereby also furthering our understanding of FDI decision making which in turn allows governments to align their policy offerings This book is therefore a useful resource for students and researchers of international economics and business and political economy as well as policymakers Investment Promotion officials and corporate managers engaged in FDI projects
