Manual of Protective Action Guides and Protective Actions for Nuclear Incidents, 1980 Generative AI in Higher Education: Guiding Principles for Teaching and Learning Emmanuel K Nartey, 2025-02-27 Divided into two volumes this book develops guiding principles for higher education institutions to use GenAI effectively and ethically in teaching and learning articulating a roadmap for implementation at institutional levels and addressing the conundrum of using GenAI in higher education As higher education institutions take different attitudes and approaches to Generative AI GenAI with some viewing it as a threat to academic integrity and therefore banning its use while others have embraced it as an innovation to academic practice and have implemented guidance on how to use it ethically this book makes clear that GenAI such as ChatGPT is not the problem itself the issue is how we engage with it The Lure of the Transcendent Dwayne Huebner, 2012-12-06 In 1969 Bill Pinar was privileged to study with Dwayne Huebner at Teachers College In a large room with 70 others he watched an extraordinary figure in the distance speaking a tongue few of them grasped whom they all found compelling They knew they were in the presence of a most remarkable and learned man Huebner helped create the world which contemporary curriculum scholars now inhabit and labor to recreate as educators and theoreticians His generative influence has been evident in many discourses including the political the phenomenological the aesthetic and the theological This volume situates Huebner's work historically emphasizing the ways it foreshadowed the reconceptualization
