MEMORANDUM FOR SEE DISTRIBUTION

JAN 15 2015

FROM: [REDACTED]
Air Force Pentagon
Washington DC 20330-1480

SUBJECT: Space Operations (AFSC 13S) Assignment Tour Lengths

1. This memorandum supersedes a 26 Mar 13 memo, same subject. It clarifies and expands the previous 13S crew tour policy.
2. With the exception of OCONUS and CONUS-isolated assignments, crew tour length is 36 months, beginning at the combat-mission ready/mission ready (CMR/MR) date. This 36 month assignment will be managed via a Code 55. Operational assignments in the 4th, 16th, and 76th Space Control Squadrons are 48 months, beginning from CMR/MR date. Squadrons have the responsibility of inputting Code 55s on their personnel. Operational assignments in the National Reconnaissance Office will be 36 months with the option of a 12-month extension to meet operational needs. NRO will manage assigned officers via a Code 56. The three-year Code 56 starts at the officer's Date Arrived Station to the NRO and is updated and managed by AFPC/DPAX. OCONUS and CONUS-isolated assignments are governed by existing AFI 36-2110 requirements.
3. Operations group commanders may request assignment extension of up to 12 months for their officers to meet leadership and instructor requirements. Approval is subject to AF needs. We request that reclaims be used judiciously to ensure that 13S officers are allowed to build breadth as well as depth whenever possible.
4. Reclamas for 13S officers serving in institutional requirement and career broadening assignments will be granted only in extreme circumstances.
5. Please refer questions or concerns to Colonel [REDACTED], 13S CFM, at: [REDACTED]@mail.mil or DSN [REDACTED].

resource providing reliable water supplies for many people Further development of groundwater resources is fundamental to increasing access to safe water across the continent to meet coverage targets and reduce poverty There is also an increasing interest in the use of groundwater for irrigated agriculture as the climate becomes more variable Sustainable development of the resource is not a trivial task and depends crucially on an understanding of the hydrogeology and people with the skills to make informed decisions on how groundwater can best be developed and managed in a sustainable fashion Despite these obvious needs however little attention has been paid to the systematic gathering of information about groundwater resources in the past few decades with the result that data are patchy knowledge is limited and investment is poorly targeted This book was written to start to bridge the knowledge gap The 29 chapters are written by a combination of practitioners and researchers mainly from within Africa using experience from recent and ongoing projects The chapters highlight the complexity and variety of issues surrounding the development and management of groundwater resources across Africa and provide a snapshot of groundwater research and application in the early 21st century Chapters range from strategic discussions of the role of groundwater in development and poverty reduction to case studies on techniques used to develop groundwater and modelling methods for managing groundwater systems

Community Archaeology and Heritage in Africa Peter R. Schmidt, Innocent Pikirayi, 2016-06-17 This volume provides new insights into the distinctive contributions that community archaeology and heritage make to the decolonization of archaeological practice Using innovative approaches the contributors explore important initiatives which have protected and revitalized local heritage initiatives that involved archaeologists as co producers rather than leaders These case studies underline the need completely reshape archaeological practice engaging local and indigenous communities in regular dialogue and recognizing their distinctive needs in order to break away from the top down power relationships that have previously characterized archaeology in Africa Community Archaeology and Heritage in Africa reflects a determined effort to change how archaeology is taught to future generations Through community based participatory approaches archaeologists and heritage professionals can benefit from shared resources and local knowledge and by sharing decision making with members of local communities archaeological inquiry can enhance their way of life ameliorate their human rights concerns and meet their daily needs to build better futures Exchanging traditional power structures for research design and implementation the examples outlined in this volume demonstrate the discipline s exciting capacity to move forward to achieve its potential as a broader more accessible and more inclusive field *Monthly Catalog of United States Government Publications* United States.
