

# Afrocentricity: The Theory of Social Change

Molefi Kete Asante

I am happy to be here in Guadaloupe. We have a common struggle to harmonize the world. Nothing we say here or do here will make much difference if it does not impact upon the way we view our identity. I am grateful that you have invited me to this beautiful land, a land almost as beautiful as the people. For more than twenty five years and in more than thirty five books I have tried to deal with the question of African identity from the perspective of African people as centered, located, oriented, and grounded. This idea I have named Afrocentricity to convey the profound need for African people to be re-located historically, economically, socially, politically, and philosophically. For too long we have held up the margins of the European's world and have been victimized by the illusion that we are working in our own best interests when, in fact, we have become the chief apologists for Europe.

Afrocentricity seeks to re-locate the African person as an agent in human history in an effort to eliminate the illusion of the fringes. For the past five hundred years Africans have been taken off of cultural, economic, religious, political, and social terms and have existed primarily on the periphery of Europe. Because of this existence we have often participated in an anti-African racism born of the same Western triumphalism that has entrapped our minds in the West. We know little about our own classical heritage and nothing about our contributions to world knowledge. To say that we are decentered means essentially that we have lost our own cultural footing and become other than our cultural and political origins, dis-located and dis-oriented. We are essentially insane, that is, living an absurdity from which we will never be able to free our minds until we return to the source. Afrocentricity as a theory of change intends to re-locate the African person as subject, thus destroying the notion of being objects in the Western project of domination. As a pan-African idea, Afrocentricity becomes the key to the proper education of children and the essence of an African cultural revival and, indeed, survival.

Afrocentricity is therefore a philosophical and theoretical perspective, as distinct from a particular system, whose origins are attributed to my works *Afrocentricity*, *The Afrocentric Idea* <afrocentric\_idea.htm>, and *Kemet, Afrocentricity, and Knowledge*. These books form the essential core of the idea that interpretation

Conyers, Jr.,2015-09-01 Afrocentricity is a philosophical and theoretical perspective that emphasizes the study of Africans as subjects not as objects and is opposed to perspectives that attempt to marginalize African thought

and experience Afrocentricity became popular in the 1980s as scores of African American and African scholars adopted an Afrocentric orientation to information. The editor of this collection argues that as scholars embark upon the 21st century they can no longer be myopic in their perceptions and analyses of race. The seventeen essays examine a wide range of variations on the Afrocentric paradigm in the areas of history, literature, political science, philosophy, economics, women's studies, cultural studies, ethnic studies, and social policy. The essays, written by professors, librarians, students, and others in higher education who have embraced the Afrocentric perspective, are divided into four sections: Pedagogy and Implementation, Theoretical Assessment, Critical Analysis, and Pan Africanist Thought. *Malcolm X and the Poetics of Haki Madhubuti* Regina

Jennings, 2006-10-12 Illustrating the power of oratory in the 1960s and its successful merging with the art of that era, this text examines the significance of Malcolm X as a literary muse for Haki Madhubuti, one of America's premiere poets and essayists. Long after the death of Malcolm X, Haki Madhubuti continued to expound on X's major oratorical themes, including the effort to destroy the racial appellation "Negro" and to create new definitions for words that relate to Africa. X's persistence in oratory during the 1960s influenced an art movement that changed the psychology and behavior of American Blacks. Through a historical and literary analysis of Black poetry, this text charts how selected writers exhibited great tensions around issues of race until the arrival of the 1960s generation of artists. This book contributes to a broader understanding of Malcolm X and his impact on American writing and culture. **Jumping the Broom** Tyler D. Parry, 2020-10-02 In this definitive history of a

unique tradition, Tyler D. Parry untangles the convoluted history of the broomstick wedding, popularly associated with African American culture. Parry traces the ritual's origins to marginalized groups in the British Isles and explores how it influenced the marriage traditions of different communities on both sides of the Atlantic Ocean. His surprising findings shed new light on the complexities of cultural exchange between peoples of African and European descent from the 1700s up to the twenty-first century. Drawing from the historical records of enslaved people in the United States, British Romani, Louisiana Cajuns, and many others, Parry discloses how marginalized people found dignity in the face of oppression by innovating and reimagining marriage rituals. Such innovations have an enduring impact on the descendants of the original practitioners. Parry reveals how and why the simple act of jumping the broom captivates so many people who, on the surface, appear to have little in common with each other. **Understanding African American Rhetoric** Ronald L. Jackson II, Elaine B.

Richardson, 2014-05-22 This is an extraordinarily well-balanced collection of essays focused on varied expressions of African American Rhetoric; it also is a critical antidote to a preoccupation with Western Rhetoric as the arbiter of what counts for effective rhetoric. Rather than impose Western terminology on African and African American rhetoric, the essays in this volume seek to illumine rhetoric from within its own cultural expression, thereby creating an understanding grounded in the culture's values. The consequence is a richly detailed and well-researched set of essays. The contribution of African American rhetoric can no longer be rendered invisible through neglect of its tradition. The essays in this volume neither seek to displace

Western Rhetoric nor function as an uncritical paen to Afrocentricity and Africology This volume is both timely and essential timely in advancing a better understanding of the richly textured history that is expressed through African American discourse and essential as a counterpoint to the hegemonic influence of Greek and Roman rhetoric as the origin of rhetorical theory and practice Written in the spirit of a critical rhetoric this collection eschews traditional focus on public address and instead offers a rich array of texts in musical and other forms that address publics Gendered Spaces, Religion and

Migration in Zimbabwe Ezra Chitando, Sophia Chirongoma, Molly Manyonganise, 2022-10-12 This book explores the intersections of gender religion and migration within the context of post independent Zimbabwe with a specific focus on how gender disparities impact economic development By demonstrating how these interconnections impact women s and girls lived realities the book addresses the need for gender equity gender inclusion and gender mainstreaming in both religious and societal institutions This book assesses the gender and migration nexus in Zimbabwe and examines the impact of religious cultural ideologies on the status of women In doing so it assesses the transition of Zimbabwean women across spaces and provides insights into the practical strategies that can be utilised to improve their status both at home and on the move Furthermore chapters show how space continues to be gendered in ways that perpetuate structural inequality to challenge the exclusion of women from key social processes Contributing to ongoing scholarly debates on gender in Africa this book will be of interest to academics and students of Gender Studies Women s Studies African Studies Development Studies as well as advocates of human rights and gender activists **An African-centered Model of Prevention for**
