

Answer Key

Unit 1 Diversity of Living Things

Using Preparation Questions (Assessing Readiness)

(Student textbook pages 4–7)

1. a
2. c
3. c
4. a. Photosynthesis is the process that produces, such as plants, algae, and some bacteria, use to chemically convert carbon from carbon dioxide from glucose using light energy from the sun. Oxygen is also produced in the process.
- b. Cellular respiration is a process that releases the energy stored in glucose. Carbon dioxide and water are also produced in the process. The chemical reactions involved in cellular respiration occur in most species, including species of plants and animals.
5. An ecosystem is all the interacting parts of a biological community and its environment—biological and non-living components, while ecosystems are water-based ecosystems.
6. A sustainable ecosystem is one that is capable of withstanding pressure and giving support to a variety of organisms. Sustainable ecosystems include, but they also support a wide variety of organisms.
7. Sustainable ecosystems continue in the same state while supporting a wide variety of organisms. If the ecosystem cannot continue in the same state, then organisms will have to move to another ecosystem or perish.
8. Sample answer: I agree with the statement because consumers need the energy produced by producers or other consumers need to eat producers. I disagree with the statement because producers need carbon dioxide made by consumers and most nutrients made by consumers (for example, from decomposer producers).
9. The average global temperature can be rising. Scientists predict that world will continue. Photosynthesis temperature will increase vegetation. Climate

on the ground is different low rainfall. Polar regions could experience more precipitation, but Earth's atmosphere warms on the increase. This warming could result in increased severity and frequency of storms.

10. Ecosystem services are the natural result of all the activities that occur in the biosphere. Ecosystem services allow ecosystems to function, which is a requirement of sustainability.
11. a sustainable ecosystem is one in which a state of balance exists in the diverse living parts and biotic-ling, physical environment. This state of balance is called equilibrium. An ecosystem that is in equilibrium tends to have a high degree of biodiversity. Such an ecosystem tends to be a sustainable ecosystem.
12. Five times in the past there were short periods when many species disappeared. These are known as mass extinctions.
13. c
14. a
15. It is an ecosystem a delicate and negative place of technology. That handling it properly or not following the proper procedures could damage or even destroy the ecosystem. This should ensure hands-on handling the area while the other holds the base of the ecosystem.

16. a

17. a. and the sample answer:

Letter	Definition	Explanation
a	System under test	Flow from throughout system (input, output, etc.)
b	Measurement	Fluctuating that fluctuates in measurement (input, output, etc.)
c	Measurement	Fluctuating that fluctuates in measurement (input, output, etc.)
d	Measurement	Fluctuating that fluctuates in measurement (input, output, etc.)
e	Measurement	Fluctuating that fluctuates in measurement (input, output, etc.)

88 Things To Know Biology Answer Key

CH Cherryholmes

88 Things To Know Biology Answer Key:

33 Years NEET Chapterwise & Topicwise Solved Papers BIOLOGY (2020 - 1988) 15th Edition Disha Experts, *Fast Answers to Common Questions* Carolyn A. Fischer, 2000 A guide to more than 4 500 commonly asked reference questions on a variety of subjects *Queries*, 1886 *Scientific and Technical Aerospace Reports*, 1990 **What Is a Human?** John H. Evans, 2016-07-01 What is a human Are humans those with human DNA those in possession of traits like rationality or those made in the image of God The debate over what makes human beings unique has raged for centuries Many think that if society accepts the wrong definition of what it is to be human people will look at their neighbor as more of an animal object or machine making maltreatment more likely In the longest running claim for over 150 years critics have claimed that taking a Darwinist definition results in people treating each other more like animals Despite their seriousness these claims have never been empirically investigated In this groundbreaking book John H Evans shows that the definitions promoted by biologists and philosophers actually are associated with less support for human rights Members of the public who agree with these definitions are less willing to sacrifice to stop genocides and are more supportive of buying organs from poor people of experimenting on prisoners against their will and of torturing people to potentially save lives It appears that the critics are right However Evans finds that few Americans agree with these academic definitions Looking at how most of the public defines humanity we see a much more nuanced picture In a fascinating account he shows that the dominant definitions are unlikely to lead to human rights abuses He concludes that the critics are right about the definitions of a human promoted by academic biologists and philosophers and are therefore justified in their vigilance However because at present few Americans agree with these definitions the academic definitions would have to spread much more extensively before impacting how the general public acts Evans book is a major corrective to the more than century long debate about the impact of definitions of a human *Pratiyogita Darpan*, 2009-04 Pratiyogita Darpan monthly magazine is India s largest read General Knowledge and Current Affairs Magazine Pratiyogita Darpan English monthly magazine is known for quality content on General Knowledge and Current Affairs Topics ranging from national and international news issues personality development interviews of examination toppers articles write up on topics like career economy history public administration geography polity social environment scientific legal etc solved papers of various examinations Essay and debate contest Quiz and knowledge testing features are covered every month in this magazine **Resources in Education**, 1995

Publishers' Weekly, 1905 **English Vocabulary in Use Upper-intermediate with Answers and CD-ROM** Michael McCarthy, Felicity O'Dell, 2012-06-14 Contains 100 easy to use practice vocabulary tests with a clear marking system on each page so that progress can be easily checked It can be used on its own for self study or in the classroom or to reinforce the vocabulary covered in English Vocabulary in Use Upper intermediate Third edition available separately CEF B2
