

GENERAL INFORMATION

The engine serial number and hull identification number are used to register the watercraft. They are unique numbers that distinguish each watercraft from other similar models.

If the watercraft is ever stolen these numbers will help identify it. The owner should keep a record of these numbers in a place other than the watercraft.

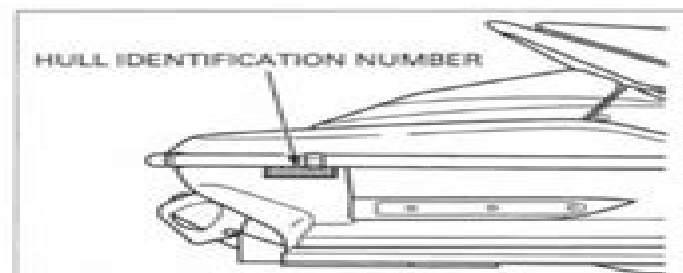

HULL NUMBER IDENTIFICATION

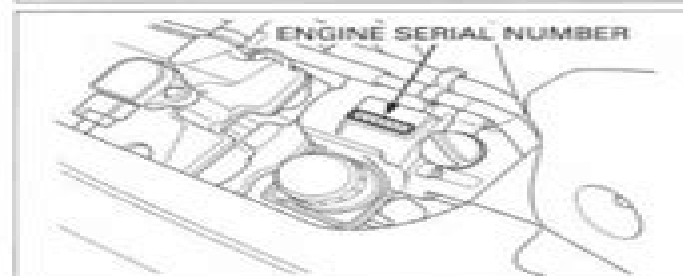

Month code: A = January, B = February—L = December

Year of certification: 02 = 2002, 03 = 2003; etc.

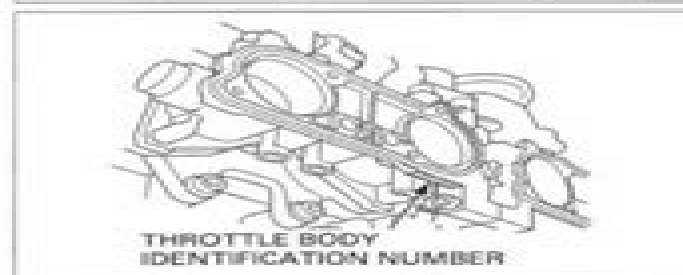

The hull identification numbers are located on the rear of the hull.

The engine serial number is located on the upper side of the oil tank.

The throttle body identification number is stamped on the lower side of the throttle body.
