

## POOL SETUP

### IMPORTANT SITE SELECTION AND GROUND PREPARATION INFORMATION

#### WARNING

- The pool location must allow you to secure all doors, windows, and safety barriers to prevent unauthorized, unintentional or unsupervised pool entry.
- Install a safety barrier that will eliminate access to the pool for young children and pets.
- Failure to set up the pool on flat, level, compact ground and to assemble and fill with water in accordance with the following instructions could result in the pool's collapse or the possibility that a person lounging in the pool could be swept off/bucked, resulting in serious injury or property damage.
- Risk of electric shock: connect the filter pump only to a grounding type receptacle protected by a ground-fault circuit interrupter (GFCI). To reduce the risk of an electrical shock, do not use extension cords, timers, plug adapters or converter plugs to connect the pump to an electrical supply. Always provide a properly located outlet. Locate the cord where it cannot be damaged by lawn mowers, hedge trimmers, and other equipment. See the filter pump manual for additional warnings and instructions.
- Risk of serious injury: do not attempt to assemble pool in high wind conditions.

Select an outdoor location for the pool with the following requirements in mind:

1. The area where the pool is to be set up must be absolutely flat and level. Do not set up the pool on a slope or inclined surface.
2. The ground surface must be compacted and firm enough to withstand the pressure and weight of a fully set up pool. Do Not set up the pool on mud, sand, soft or loose soil conditions.
3. Do Not set up the pool on a deck, balcony or platform.
4. The pool requires at least 5 - 6 feet (1.5 - 2.0 m) of space all around pool from objects that a child could climb on to gain access to the pool.
5. The chlorinated poolwater could damage the surrounding vegetation.
6. If the ground is not concrete (i.e., if it is asphalt, lawn or earth) you must place a piece of pressure-treated wood, size 15' x 10' x 1.2" (38 x 26 x 3cm), under each U-shaped support and flush with the ground. Alternatively you may use steel pads or reinforced tiles. Consult your local pool supply retailer for advice on support pads.
7. Above ground inflatable pools shall be located at a minimum distance of 6 ft (1.83 meters) from any receptacle, and that all 125-volt 15- and 20-ampere receptacles located within 20 ft (6.1 meters) of the pool shall be protected by a ground fault circuit interrupter (GFCI), where distances are by measuring the shortest path the supply cord of an appliance connected to the receptacle would follow without passing a door, wall, ceiling, doorway with hinged or sliding door, window opening, or other effective permanent barrier.
8. Eliminate all aggressive grasses first. Certain types of grass such as St. Augustine and Bermuda, may grow through the liner. Grass growing through the liner is not a manufacture defect and is not covered under warranty.
