In a world full of digital connections and globalization, a startling truth remains hidden in plain sight: countless communities have yet to hear the transformative message of the gospel. A mere fraction of global missionaries, less than 4 percent, are devoted to the unreached people groups (UPGs). This glaring disparity reveals a challenge in modern missiology. *People Vision* is a benchmark study of the people group paradigm that underscores its vital role in the twenty-first century. Leveraging insights from those in the Majority World, over sixty authors reexamine our understanding of people group missiology from the lens of Scripture, reflection, conversation, prayer, and case studies from field workers and church mission leaders. Readers are equipped with the tools to navigate and overcome the barriers hindering effective mission work among UPGs and envision innovative approaches.
