The Pontons may have been Mercedes Benz's bread and butter models of the 1950s but they were vitally important in establishing the marque as a significant player around the globe. Alongside the saloons that made Mercedes famous worldwide for long lasting and economical taxis there were exotic two door cabriolet and coup derivatives and the car's basic structure was made available too for conversion into ambulances, pick ups, estate cars and hearses. Not always appreciated is that the 190SL sports model was also derived from the engineering of the Ponton range. The Ponton Mercedes and the 190SL have long enjoyed a strong enthusiast following around the world. Here is their story from their creation at a time when Mercedes was emerging from the devastation of war through their success during the German Economic Miracle of the 1950s to their final days in the early 1960s alongside the first of the Fintail models that would eventually replace them. No enthusiast of these widely respected cars will want to be without this book.

**Mercedes-Benz 300SL** Karl Ludvigsen, 2005-04-15 In 1952 Mercedes Benz astonished the racing world with the successes it achieved with its 300SL, exploiting an advanced space type frame and aerodynamic body with gullwing doors. Already the subject of a Ludvigsen Library Series book, the racing 300SL inspired the creation of a production version which first took flight in 1954. The 300SL stunned critics and experts alike with its fabulous performance, more than 150 miles per hour, exotic looks and superb build quality. Not just a pretty face, the 300SL was also extremely successful in competition on both sides of the Atlantic. The original coupe was followed by a roadster version in 1957, in all 3,258 were made. Drawing on his unmatched archive of Mercedes Benz photos including coverage by Rudy Mailander and Edward Eves of the 300SL production line, Karl Ludvigsen presents the 300SL in all its glory. He also draws on his own experience as an owner of one of these great cars.

**Mercedes-Benz Sport-Light Coupe** Nik Greene, 2021-02-22 In the very beginning the automotive industry was dominated by open top vehicles whose body shapes were very much based on the horse drawn carriage; there were open and closed carriages and then there was the Coupe. These were developed from the type of carriage known as the Berlin coach which was designed as a classic vehicle for individual luxury travel and prestige. This type of carriage offered an intimate atmosphere focused exclusively on the passengers; it did not even have space for luggage; it simply exuded style, elegance and luxury in every way. This first volume of the Mercedes Benz Coupe book addresses the journey from what was a functional sports car design to what has become the incomparable Mercedes Benz Sports Coupe; its timeless body design has remained even today both a dream car and a dream Coupe to anyone whom aspires to follow in the footsteps of the early individualists who chose style and elegance over practicality. With over 300 photographs and illustrations, this book includes an overview of the early days of Sports Car design, the influences of aerodynamics on design evolution, early protagonists at Daimler Benz and how they influenced design of the Coupe shape, how the Racing Coupe influenced what became the production Sport Coupe, the experimental and one off prototypes and finally the continuation of the Super Sport Light concept through the S Class range.

**Mercedes-Benz 300SL** Dennis Adler, 1994 When Mercedes Benz created its 300SL in 1952, the famed

German automaker so outpaced its competition from Ferrari Porsche and Jaguar that its design and engineering standards became the hallmark by which sports cars the world over would be judged for more than a decade Trace this fantastic car s development from the first racers of 1952 through the production Gullwing coupe of 1954 the roadster the 300SLR and the W196 racers Rare Daimler Benz archival photos detail the models from prototype to production to racetrack Sftbd 10 x 10 160 pgs 50 b w and 150 color ill
