316 Mining Investors From China To Laos:

Under Beijing's Shadow Murray Hiebert, 2020-08-15 China's rise and stepped up involvement in Southeast Asia have prompted a blend of anticipation and unease among its smaller neighbors. The stunning growth of China has yanked up the region's economies but its militarization of the South China Sea and dam building on the Mekong River has nations wary about Beijing's outsized ambitions. Southeast Asians long felt relatively secure relying on the United States as a security hedge but that confidence began to slip after the Trump administration launched a trade war with China and questioned the usefulness of traditional alliances. This compelling book provides a snapshot of ten countries in Southeast Asia by exploring their diverse experiences with China and how this impacts their perceptions of Beijing's actions and its long-term political, economic, military, and soft power goals in the region. Vietnam Mineral and Mining Sector Investment and Business Guide Volume 1 Strategic Information and Regulations IBP USA, 2013-08 Vietnam Mineral Mining Sector Investment and Business Guide Strategic and Practical Information *Mining Journal, Railway & Commercial Gazette*, 1905 **Transnational Law & Contemporary Problems**, 2008 Contract Interpretation in Investment Treaty Arbitration Yuliya Chernykh, 2022-01-17 Contracts are relevant frequently central for a significant number of investment disputes. Yet the way tribunals ascertain their content remains largely underexplored. How do tribunals interpret contracts in investment treaty arbitration? How should they interpret contracts? Does national law have any role to play? Contract Interpretation in Investment Treaty Arbitration: A Theory of the Incidental Issue addresses these questions. The monograph offers a valuable insight into the practice and theory of contract interpretation in investment treaty arbitration. By proposing a theoretical frame for seamless integration of contract interpretation into the overall structure of decision making, the book contributes to predictability, coherence, sufficiency, and correctness of the tribunals' interpretative practices in investment treaty arbitration. The First Bilateral Investment Treaties Kenneth J. Vandewelde, 2017-04-05 The First Bilateral Investment Treaties is the first and only history of the U.S. postwar Friendship, Commerce, and Navigation (FCN) treaty program and focuses on the investment-related provisions of those treaties. The 22 U.S. postwar FCN treaties were the first bilateral investment treaties ever concluded and nearly all of the core provisions in the modern network of more than 3000 international investment agreements worldwide trace their origin to these FCN treaties. This book explains the original understanding of the language of this vast network of agreements which have been and continue to be the subject of hundreds of international arbitrations and billions of dollars in claims. It is based on a review of some 32,000 pages of negotiating history housed in the National Archives. This book demonstrates that the investment provisions were founded on the New Deal liberalism of the Roosevelt-Truman administrations and were intended to acquire for U.S. companies investing abroad the same protections that foreign investors already received in the United States under the U.S. Constitution. It chronicles the failed U.S. attempt to obtain protection for investment through the proposed International Trade Organization (ITO) providing the first and only history of the investment

related provisions in the ITO Charter It then shows how the FCN treaties which dated back to 1776 and originally concerned with establishing trade and maritime relations were re conceptualized as investment treaties to provide investment protection bilaterally This book is also a work of diplomatic history offering an account of the negotiating history of each of the 22 treaties and describing U S negotiating policy and strategy *Japan and China in East Asian Integration* Lim Hua Sing,2008 Provides analyses on the politico economic relationship between Japan and China and a comparison of economic strengths between China and India in East Asian economic integration Provides an overall analysis on East Asian economic integration including some observations on the recent development and future prospects of the region The World Factbook ,2006 *Dragons and Tigers* Barbara A.
