Irm Look Out, Look in Adler, Proctor, Towne, 2004-04 Managing Your Indicators System: A Key for Managers and Planners Diofante Acevedo Gamboa, 2021-09-20 Organizations implement an indicators system to manage several types of resources and reduce dysfunctions through better decision making However many have lost sight of how to manage indicators and information systems in a way that strengthens the capacity to react at strategic and operational levels From the planning perspective managers agree what needs to be done in the short medium and long term and these are expressed

in a plan encompassing the organization's aspirations over various time horizons. A measurement plan is often missing, however, especially in the form of a document that specifies each indicator and governs each user's behavior when using performance indicators as well as the metrics that allow us to learn whether the measurement project is having the desired impact on the organizational environment over time. *Managing Your Indicators System: A Key for Managers and Planners* intends to fill a void in how to manage your organization's indicators system, thus having a positive effect on the performance of managers and planners.
