Copyright Office,1943 Unwarranted Barry Friedman,2017-02-21 In June 2013 documents leaked by Edward Snowden sparked widespread debate about secret government surveillance of Americans Just over a year later the shooting of Michael Brown a black teenager in Ferguson Missouri set off protests and triggered concern about militarization and discriminatory policing In Unwarranted Barry Friedman argues that these two seemingly disparate events are connected and that the problem is not so much the policing agencies as it is the rest of us We allow these agencies to operate in secret and to decide how to police us rather than calling the shots ourselves The courts have let us down entirely Unwarranted is filled with stories of ordinary people whose lives were sundered by policing gone awry Driven by technology policing has changed dramatically from cops seeking out bad guys to mass surveillance of all of society backed by an increasingly militarized capability Friedman captures this new eerie environment in which CCTV location tracking and predictive policing has made us all suspects while proliferating SWAT teams and increased use of force puts everyone at risk Police play an indispensable role in our society But left under regulated by us and unchecked by the courts our lives liberties and property are at peril

Unwarranted is a vital timely intervention in debates about policing a call to take responsibility for governing those who govern us Subject Guide to Books in Print ,2001 *Terrorism and Homeland Security* Philip Purpura,2011-08-29
