Dissolved Organic Matter in Lacustrine Ecosystems K. Salonen, T. Kairesalo, R.I. Jones, 2012-12-06 Concentrations of dissolved organic matter DOM in lakes are often an order of magnitude greater than concentrations of particulate organic matter nevertheless the biogeochemical analysis of DOM is described in only a few textbooks on limnology most thoroughly by Wetzel The origins of dissolved organic substances are largely photosynthetic DOM is either autochthonously synthesized by littoral and pelagic

flora through secretions and autolysis of cellular contents or allochthonously generated in terrestrial systems of the drainage basin composing largely of humic substances refractory to rapid microbial degradation The role of DOM in lacustrine ecosystems as energy source and system regulator however is still poorly known The aim of this book is 1 to present state of the art reviews of the role of dissolved autochthonous and allochthonous organic matter in pelagial and littoral zones and 2 to focus attention on poorly understood but critical topics and hence to provide direction for future research activity

Do Facts Matter? Jennifer L. Hochschild, Katherine Levine Einstein, 2015-01-20
A democracy falters when most of its citizens are uninformed or misinformed when misinformation affects political decisions and actions or when political actors foment misinformation the state of affairs the United States faces today as this timely book makes painfully clear In Do Facts Matter Jennifer L Hochschild and Katherine Levine Einstein start with Thomas Jefferson s ideal citizen who knows and uses correct information to make policy or political choices What then the authors ask are the consequences if citizens are informed but do not act on their knowledge More serious what if they do act but on incorrect information Analyzing the use nonuse and misuse of facts in various cases such as the call to impeach Bill Clinton the response to global warming Clarence Thomas s appointment to the Supreme Court the case for invading Iraq beliefs about Barack Obama s birthplace and religion and the Affordable Care Act Hochschild and Einstein argue persuasively that errors of commission that is acting on falsehoods are even more troublesome than errors of omission While citizens inability or unwillingness to use the facts they know in their political decision making may be frustrating their acquisition and use of incorrect knowledge pose a far greater threat to a democratic political system Do Facts Matter looks beyond individual citizens to the role that political elites play in informing misinforming and encouraging or discouraging the use of accurate or mistaken information or beliefs Hochschild and Einstein show that if a well informed electorate remains a crucial component of a successful democracy the deliberate concealment of political facts poses its greatest threat

clustering and the transitions among them The analytical and numerical results shed new light on the physical connection between the local microscopic properties of few particles and the macroscopic collective motion of the whole system
