studies [The Politics of Distributing Social Transfers](#) Tom Lavers, 2022-05-19 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations The Politics of Distributing Social Transfers in Sub Saharan Africa and South Asia provides a systematic analysis of the political processes shaping the distribution of social transfers in six countries in Sub Saharan Africa and South Asia In doing so the book addresses a notable gap in recent research on social protection concerning the politics of implementation While considerable attention has been devoted to debating the merits of different policy designs and the political factors shaping the adoption and diffusion of different policy models ultimately the ability of any social transfer programme to deliver on its promises is dependent on the effective implementation and distribution of social transfers in line with intended objectives The chapters in this book examine international and sub national variation in programme implementation in Bangladesh Ethiopia Ghana Kenya Nepal and Rwanda drawing on a common analytical framework that highlights the importance of state capacity and reach rooted in histories of state formation and contemporary political competition in shaping the distribution of social transfers Comparative analysis of the case studies supports the view that variation in the capacity and reach of the state within countries is a centrally important factor shaping the effectiveness and impartiality of distribution Yet state capacity alone is insufficient Rather political competition and power relations shape how this capacity is actually deployed in practice As such the book underscores the inherently political nature of implementation and questions common technocratic efforts to improve implementation by depoliticizing the social protection policy process [The Routledge Handbook of Social Care Work Around the World](#) Karen Christensen, Dora Pilling, 2017-12-22 The Routledge Handbook of Social Care Work Around the World provides both a comprehensive and authoritative state of the art review of the current research in this subject It is the first handbook to cover social care work research from around the world including both low and middle income countries as well as high income countries Each of the 22 chapters are written by experts on long term care services particularly for older people and cover key issues and debates based on research evidence on social care work in a specific country They look at perspectives of social care work from the macro level the structural conditions for long term care including demographic challenges and the long term care policy the meso level the level of provider organizations and intermediaries and the micro level views of care workers care users and unpaid informal carers Furthermore they discuss a number of topics central to discussions of care work including marketization personalization policies policy implementation under austerity the provision of social care work whether through public services or private arrangements or mixed types funding the feminization of social care and the new role that technology and robots can play in care work By drawing together leading scholars from around the world this book provides an up to the minute snapshot of current scholarship as well as signposting several fruitful avenues for future research This book is both an invaluable resource for scholars and an indispensable teaching tool for use in the classroom

New Welfare Policy and Democratic Politics in India Prakash Sarangi, 2024-06-11 *New Welfare Policy and Democratic Politics in India* offers an analysis of India's welfare policy during the last couple of decades It looks at how welfare policy making is viewed as a function of party competition and voter mobilization showing a gradual transformation of political clients into entitled citizens through which democratic politics in India has redefined its contemporary welfare discourse The book argues that political parties formulate policies in order to respond to the voices of citizens and shows that a new welfare architecture emerged in India characterized as responsive welfare India has witnessed a sharp rise in such voices which have been disadvantaged by a globalizing market The size and vulnerability of this group has made them politically significant and electorally salient These welfare aspirants have found a new political space through political parties to negotiate and assert their claims on the state creating a milestone in India's democratic politics trajectory in the form of entitlement based welfare policy The book compares and evaluates the implications of these new welfare policies in the contexts of two governments the Congress led government during 2009

2014 and the BJP led government during 20014 2019 The empirical data reveal remarkable similarities in their electoral pledges policy outputs policy outcomes and accountability towards citizens These findings indicate significant convergence in their welfare policies sans ideology or ethnic support base It also reveals that the ideological differences among the two major parties do not prevent remarkable continuities in the formulation and implementation of welfare policies during their incumbencies thus allowing for a bipartisan acceptance of a citizen centric welfare policy Offering a new analysis to understand this citizen party policy linkage in the formulation of welfare policy in India the book presents a macro analysis of India s interface between democratic politics and welfare policy It will be of interest to researchers in the fields of the politics of welfare democratisation in changing societies comparative politics and Indian and South Asian Studies and Asian Politics
