Getting to the Common Core Sharon L. Spencer, Sandra Vavra, 2015-01-01 The Common Core Standards have recently been adopted in most states across the nation and teachers are in the process of getting to the core of these standards Teaching to standards is not a new concept teachers have adapted to new standards every few years for quite some time And teachers are adaptable as can be seen in this book We are writing this book to demonstrate how teachers use research based strategies to meet Common Core Standards while still focusing on students Our goal is to help teachers visualize students in action as other teachers describe the implementation of research based strategies in their own classrooms show student work samples and provide reflections of student success in achieving the standards Many Common Core Standards books focus on the standards but our approach focuses on strategies that engage the students in the classroom showing how different teachers at varying grade levels have used the strategies to meet the standards With this focus we believe that teachers gain a new and positive perspective on approaching the new standards and see the flexibility of strategies for meeting standards across subject areas We have examined research on the strategies with the purpose of giving teachers a

brief description of why these strategies work before giving actual examples from classrooms We also work closely with teachers in the public schools and have our finger on the pulse of what is happening in the public schools one of the current stressors being unpacking the Common Core Standards This book actually focuses on practice We begin by laying out a rationale in our first chapter The Core Values of Education Then each chapter focuses on a strategy including 1 a brief description about the research supporting each strategy and 2 several examples from different grade levels which include a description of how the strategy was used student work samples and a reflection on the use of the strategy The research descriptions are fairly short because while we believe professional educators aka teachers in this case should know the research that supports practice we know they are not typically interested in long diatribes about the research *Writing Strategies for the Common Core* Hillary Wolfe, 2015-08 Elementary school students need to learn to write explanatory informational argument and narrative text types and respond to literature both for standardized tests and more importantly real world writing With a balanced literacy approach Wolfe provides core instruction teaching strategies and mini lessons on these text types each of which can be delivered across content areas or as a complete unit of instruction Mini lessons are provided for grades 3-5 and include materials lists overviews planning tips procedures including modeling guided practice and independent practice opportunities reading connections formative assessments and reproducible graphic organizers for scaffolding Prerequisite skill overviews and rubrics both analytic for formative assessments and holistic for summative assessments are also provided for each unit to simplify your teaching and ensure student success Common Core Standards a Step-By-Step Approach: English Language Arts - Grades K-5 Toby Karten, 2012-01-01 Give your students a head start in achieving the critical knowledge and skills identified in the K-5 English Language Arts Common Core State Standards Common Core Standards A Step by Step Approach English Language Arts Grades K-5 is an essential tool for all ELA teachers striving to ensure students meet these standards in each of the four strands of the ELA Reading Writing Speaking and Listening and Language Written by Toby Karten an educator with more than 30 years of experience this valuable six page tri fold laminated guide includes Classroom management tips Core materials and resources Good teaching and assessment practices Additionally this valuable guide provides teachers with a step by step approach to teaching students in grades K-5 the literacy skills they need to meet the English and Language Arts Standards according to the CCS In one easy to read reference this approach is broken down by grade level and includes Review ELA standards from prior current and following years Determine student levels then decide topics for a particular time frame for small groups and individuals Share these topics and goals with students in a child friendly language Create a task analysis of a standard that includes visuals and graphic organizers Revisit and adjust groups and individual lessons based on formal and informal tests and assessments An essential desktop tool for any literacy teacher striving to help students meet the CCSS Two Books Are Better Than One!
