Expanding the Black Film Canon Lisa Doris Alexander, 2019-08-30 If the sheer diversity of recent hits from Twelve Years a Slave and Moonlight to Get Out Black Panther and BlackkKlansman tells us anything it might be that there s no such thing as black film per se This book is especially timely then in expanding our idea of what black films are and going back to the 1960s showing us new and interesting ways to understand them When critics and scholars write about films from the

Blaxploitation movement such as *Cotton Comes to Harlem*, *Shaft*, *Superfly* and *Cleopatra Jones* they emphasize their importance as films made for black audiences. Consequently Lisa Doris Alexander points out a film like the highly popular Oscar nominated *Blazing Saddles* costarring and co written by Richard Pryor is generally left out of the discussion because it doesn't fit the profile of what a black film of the period should be. This is the kind of categorical thinking that Alexander seeks to broaden looking at films from the 60s to the present day in the context of their time. Applying insights from black feminist thought and critical race theory to one film per decade she analyzes what each can tell us about the status of black people and race relations in the United States at the time of its release. By teasing out the importance of certain films excluded from the black film canon Alexander hopes to expand that canon to include films typically relegated to the category of popular entertainment and to show how these offer more nuanced representations of black characters even as they confront, negate or parody the controlling images that have defined black filmic characters for decades.

Social Studies for Secondary Schools Alan J. Singer, 2014-10-08. Now in its 4th edition this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects and activities. A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society, history and the purpose of social studies education. Advocating an inquiry and activity based view of social studies teaching that respects the points of view of students and teachers and based in practice and experience it offers systematic support and open, honest advice for new teachers. Each chapter addresses a broad question about social studies education; sub chapters begin with narrower questions that direct attention to specific educational issues. Lesson ideas and materials in the book and online are especially designed to help new teachers to address common core learning standards, to work in inclusive settings and to promote literacy and the use of technology in social studies classrooms. Chapters include highlighted Learning Activities, Teaching Activities and Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies and conclude with recommendations for further reading and links to online essays about related social studies topics. Activities are followed by four categories: Think it over, Add your voice to the discussion, Try it yourself and It's your classroom. All of these are supported with online teaching material. Designed for undergraduate and graduate pre-service social studies methods courses this text is also useful for in-service training programs as a reference for new social studies teachers and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice. New in the Fourth Edition: Provides a number of new lesson ideas paired with online lesson plans and activity sheets in every chapter. Takes a new focus on data driven standards based instruction especially in relation to the common core curriculum. Addresses the interactive nature of learning in updated technology sections. Reflects current trends in history education. Includes more of what the author has learned from working teachers. Offers a wealth of additional online material linked to the text. **A**
