Advanced Information Systems Engineering Anne Banks Pidduck, John Mylopoulos, Carson C. Woo, M.T. Ozsu, 2003-08-01 The explosive growth of the Internet and the Web have created an ever growing demand for information systems and ever growing challenges for Information Systems Engineering The series of Conferences on Advanced Information Systems Engineering CAiSE was launched in Scandinavia by Janis Bubenko and Arne Solvberg in 1989 became an important European conference and was held annually in major European sites throughout the 1990s Now in its 14th year CAiSE was held for the first time outside Europe showcasing international research on information systems and their engineering Not surprisingly this year the conference enjoyed unprecedented attention In total the conference received 173 paper submissions the highest number ever for a CAiSE conference Of those 42 were accepted as regular papers and 26 as short poster papers In addition the conference received 12 proposals for workshops of which 8 were approved while 4 tutorials were selected from 15 submissions The technical program was put together by an international committee of 81 experts In total 505 reviews were submitted with every member of the committee contributing

Decisions on all submissions were reached at a program committee meeting in Toronto on January 26 27 2002 Workshop and tutorial proposals were handled separately by committees chaired by Patrick Martin workshops and Jarek Gryz and Richard Paige tutorials We wish to extend a great THANK YOU to all members of the program and organizing committees for their volunteer contributions of time and expertise The fact that so many busy and famous people took the trouble to help us with the organization of this conference and the formation of its technical program speaks well for the future of CAiSE and the field of Information Systems Engineering
