

# 2000 Words Essay on Accountability

## 1. Start with a plan

Accountability is one of the most important skills to learn when you're learning, achieving goals, or want to complete a task. A plan is important for accountability because it means that you know what you need to do to achieve your goal and that you are putting this knowledge into action at regular intervals.

## 2. Take responsibility for your own actions

It's easy to blame other people, but the truth is that you're the only one who can take responsibility for your own actions. By accepting responsibility for your own failures and refusing to blame others for your shortcomings, you can start to overcome them.

## 3. Journal regularly to keep track of your goals

I believe that one of the most important things you can do for yourself is to write in a journal. Every day you should write about what you did that day, how you felt, and what you're looking forward to. This is an easy way to keep track of your goals and make sure that you're moving toward them.

## 4. Make it a routine

A lot of people think that if you don't see immediate results, it's not worth it. The truth is that, if you're consistent, you will see results. It may take a few months or even a few years for some people, but, if you're consistent, you will achieve your goals. Here is a quote that will help you start seeing instant results.

## 5. Find accountability partners who will push you to succeed

Your friends and family may not always be the best people to ask for advice and accountability when you're trying to change your habits. The people you surround yourself with and spend the most time with are the ones who will support you or hold you accountable for your success.

## 6. Start acting now

Learning how to be accountable for your life is a big step that can make a real difference in your life. Whether you're trying to work on your health, fitness, career, or seeking to achieve your big goals, accountability is a powerful tool to have in your life. Here are some ways you can start building your personal accountability today.

**Assessment for Social Justice** Jan McArthur, 2018-03-22 Assessment for Social Justice takes the established idea of assessment for learning and extends it to consider how assessment contributes to social justice within and through higher education Jan McArthur invites the reader to rethink familiar positions on assessment and fairness and seeks to explore the full complexity of a critical theory inspired notion of social justice She positions her work in contrast to more procedural approaches to social justice such as John Rawls s influential theorisation of social justice In contrast McArthur draws on the work of third generation critical theorist Axel Honneth and takes inspiration from Honneth s three realms of mutual recognition in order to reconsider the nature of assessment relationships and practices A further theoretical strand is introduced in the form of social practice theory and particularly the work of Theodore Shatzki McArthur provides a theoretically rigorous understanding of assessment as a social practice and as a vehicle both for and against social justice Together with critical theory this work enables a realizable vision of an alternative approach to assessment in higher education where the underlying aim is greater social justice McArthur argues that students must be nurtured to recognise the social contribution that they can make as a result of engaging with knowledge in higher education rather than defining their achievements in terms of a mark grade or degree classification
