

AFRICA BEFORE EUROPEAN ARRIVAL

DBQ

This task is based on the accompanying documents. Some of these documents have been edited for the purpose of this task. This task is designed to test your ability to work with historic documents. As you analyze the documents, take into account both the source of the document and the author's point of view

➤ Historical Context

Africans had developed advanced civilizations before the Europeans arrived in the fifteenth and sixteenth centuries. Beginning with Aksum (Ethiopia today) in East Africa in the 300's, the kingdoms, empires, and cities arose and declined. In west Africa, three empires- Ghana, Mali, and Songhai- controlled the gold and salt trade. Between 1000 and 1500, cities on Africa's east coast also gained wealth and power through trade. There were several centers of advanced civilization in Africa between 300 and 1400.

➤ Directions

The following question is based on the accompanying documents. As you analyze the documents, take into account both the source of the document and the author's point of view. Be sure to:

1. Carefully read the document-based question. Consider what you already know about the topic. How would you answer the question if you had no documents to examine?
2. Now, read each document carefully, underlining key phrases and words that address the document-based question. You may also wish to make notes. Answer the questions which follow each document.
3. Based on your own knowledge and on the information found in the documents, formulate a thesis that directly answers the question.
4. Organize supportive and relevant information into a brief outline.
5. Write a well-organized essay proving your thesis. The essay should be logically presented and should include information both from the documents and from your own knowledge outside the documents.

Document 1: Aksum reached its height between 325 and 360. Aksum's location made it an important international trading center. This map shows the trade routes to and from Aksum between 300 and 700.

Q: How did Aksum's location enable it to become a trading center?
