American Guides Wendy Griswold, 2016-08-26 In the midst of the Great Depression Americans were nearly universally literate and they were hungry for the written word Magazines novels and newspapers littered the floors of parlors and tenements alike With an eye to this market and as a response to devastating unemployment Roosevelt s Works Progress Administration created the Federal Writers Project The Project s mission was simple jobs But as Wendy Griswold shows in the lively and persuasive *American Guides* the Project had a profound and unintended cultural impact that went far beyond the writers paychecks Griswold s subject here is the Project s *American Guides* an impressively produced series that set out not only to direct travelers on which routes to take and what to see throughout the country but also to celebrate the

distinctive characteristics of each individual state Griswold finds that the series unintentionally diversified American literary culture's cast of characters promoting women minority and rural writers while it also institutionalized the innovative idea that American culture comes in state shaped boxes Griswold's story alters our customary ideas about cultural change as a gradual process revealing how diversity is often the result of politically strategic decisions and bureaucratic logic as well as of the conflicts between snobbish metropolitan intellectuals and stubborn locals American Guides reveals the significance of cultural federalism and the indelible impact that the Federal Writers Project continues to have on the American literary landscape

Race, Ethnicity, and Place in a Changing America, Third Edition John W. Frazier, Eugene L. Tettey-Fio, Norah F. Henry, 2017-01-12 This book examines major Hispanic African and Asian diasporas in the continental United States and Puerto Rico from the nineteenth century to the present with particular attention on the diverse ways in which these immigrant groups have shaped and reshaped American places and landscapes Through both historical and contemporary case studies the contributors examine how race and ethnicity affect the places we live work and visit illustrating along the way the behaviors and concepts that comprise the modern ethnic and racial geography of immigrant and minority groups While primarily addressed to students and scholars in the fields of racial and ethnic geography these case studies will be accessible to anyone interested in race place connections race ethnicity boundaries the development of racialization and the complexity of human settlement patterns and landscapes that make up the United States and Puerto Rico Taken together they show how individuals and culture groups through their ideologies social organization and social institutions reflect both local and regional processes of place making and place remaking that occur within and beyond the continental United States

need **Pop Goes the Decade** Ralph G. Giordano,2017-06-05 Covering significant historical and cultural moments public
figures and celebrities art and entertainment and technology that influenced life during the decade this book documents the
1950s through the lens of popular culture On the surface the 1950s was a time of post war prosperity and abundance
However in spite of a relaxation of immigration policies the good life in the 50s was mainly confined to white non ethnic
Americans A new Cold War with the Soviet Union intended to contain the threat of Communism and the resulting red scare
tinged the experience of all U S citizens during the decade This book examines the key trends people and movements of the

1950s and inspects them within a larger cultural and social context By highlighting controversies in the decade readers will gain a better understanding of the social values and thinking of the time The examination of the individuals who influenced American culture in the 1950s enables students to gauge the tension between established norms of conformity and those figures that used pop culture as a broad avenue for change either intentionally or by accident

A History of America in 100 Maps Susan Schulten,2018-09-21 Throughout its history America has been defined through maps Whether made for military strategy or urban reform to encourage settlement or to investigate disease maps invest information with meaning by translating it into visual form They capture what people knew what they thought they knew what they hoped for and what they feared As such they offer unrivaled windows onto the past In this book Susan Schulten uses maps to explore five centuries of American history from the voyages of European discovery to the digital age With stunning visual clarity A History of America in 100 Maps showcases the power of cartography to illuminate and complicate our understanding of the past Gathered primarily from the British Library's incomparable archives and compiled into nine chronological chapters these one hundred full color maps range from the iconic to the unfamiliar Each is discussed in terms of its specific features as well as its larger historical significance in a way that conveys a fresh perspective on the past Some of these maps were made by established cartographers while others were made by unknown individuals such as Cherokee tribal leaders soldiers on the front and the first generation of girls to be formally educated Some were tools of statecraft and diplomacy and others were instruments of social reform or even advertising and entertainment But when considered together they demonstrate the many ways that maps both reflect and influence historical change Audacious in scope and charming in execution this collection of one hundred full color maps offers an imaginative and visually engaging tour of American history that will show readers a new way of navigating their own worlds

Cutting a Figure Richard J. Powell,2008 Examining portraits of black people over the past two centuries Cutting a Figure argues that these images should be viewed as a distinct category of portraiture that differs significantly from depictions of people with other racial and ethnic backgrounds The difference Richard Powell contends lies in the social capital that stems directly from the black subject's power to subvert dominant racist representations by evincing such traits as self composure self adornment and self imagining Powell forcefully supports this argument with evidence drawn from a survey of nineteenth century portraits in depth case studies of the postwar fashion model Donyale Luna and the contemporary portraitist Barkley L Hendricks and insightful analyses of images created since the late 1970s Along the way he discusses major artists such as Fr d ric Bazille John Singer Sargent James Van Der Zee and David Hammons alongside such overlooked producers of black visual culture as the Tonka and Nike corporations Combining previously unpublished images with scrupulous archival research Cutting a Figure illuminates the ideological nature of the genre and the centrality of race and cultural identity in understanding modern and contemporary portraiture

Race and Retail Mia Bay,Ann Fabian,2015-08-04 Race has long shaped shopping experiences for many Americans Retail exchanges and

establishments have made headlines as flashpoints for conflict not only between blacks and whites but also between whites Mexicans Asian Americans and a wide variety of other ethnic groups who have at times found themselves unwelcome at white owned businesses Race and Retail documents the extent to which retail establishments both past and present have often catered to specific ethnic and racial groups Using an interdisciplinary approach the original essays collected here explore selling and buying practices of nonwhite populations around the world and the barriers that shape these habits such as racial discrimination food deserts and gentrification The contributors highlight more contemporary issues by raising questions about how race informs business owners ideas about consumer demand resulting in substandard quality and higher prices for minorities than in predominantly white neighborhoods In a wide ranging exploration of the subject they also address revitalization and gentrification in South Korean and Latino neighborhoods in California Arab and Turkish coffeehouses and hookah lounges in South Paterson New Jersey and tourist capoeira consumption in Brazil Race and Retail illuminates the complex play of forces at work in racialized retail markets and the everyday impact of those forces on minority consumers The essays demonstrate how past practice remains in force in subtle and not so subtle ways
