# AFRIKAANS - FAL

### TERM 1

#### **Module 1 Die luisterswaeltjies skryf 'n verslag**

You have come to a new season in your life; you're a Matric learner now and this can be a bit overwhelming and even daunting. That is why the Orientation lesson will discuss the course outlines and prepare you for what you can expect in the course. The orientation lesson will unpack the assessments you will have to complete for the course. We will look at what skills will be covered in the course, the literature that you will encounter in the coming months, and how assessments will be carried out. We will also have a look at the structure of your examinations throughout the year, and what is expected of you in order to successfully progress through this course. "Every season is one of becoming, but not always one of blooming. Be gracious with your ever-evolving self." — B. Oakman.

In this module, we will also analyse a poem called "Luisterswaeltjies" by Theunis Theodorus Cloete. You will recall important grammar rules such as "Afkortings, akronieme, denotasie, konnotasie en lidwoorde" and vocabulary in the comprehension and language lessons. You will also review the format of an informal and formal report. Remember to embrace the current season of your life and give it your best shot.

Relanguaging Language from a South African Township School Lara-Stephanie Krause-Alzaidi,2021-12-20 Using data from a long term ethnographic study of English language classrooms in a South African township this book highlights linguistic expertise in a setting where it is not usually expected or sought Rather than being peripheral and unskilled South African township teachers and learners emerge as skilled re languagers central to the workings of South African education and to our understanding of how language classrooms work This book foregrounds the heterogeneity flexibility and creativity of day to day language practices that African urban spaces are known for and conceptualises language teaching not as a progression from one fixed language to another but as a circular sorting process between linguistic heterogeneity languaging and homogeneity a standard language      *African Books in Print ,1993*      **Class, Race, and Inequality in South Africa** Jeremy Seekings,Nicoli Natrass,2008-10-01 The distribution of incomes in South Africa in 2004 ten years after the transition to democracy was probably more unequal than it had been under apartheid In this book Jeremy Seekings and Nicoli Natrass explain why this is so offering a detailed and comprehensive analysis of inequality in South Africa from the midtwentieth century to the early twenty first century They show that the basis of inequality shifted in the last decades of the twentieth century from race to class Formal deracialization of public policy did not reduce the actual disadvantages experienced by the poor nor the advantages of the rich The fundamental continuity in patterns of advantage and disadvantage resulted from underlying continuities in public policy or what Seekings and Natrass call the distributional regime The post apartheid distributional regime continues to divide South Africans into insiders and outsiders The insiders now increasingly multiracial enjoy good access to well paid skilled jobs the outsiders lack skills and employment      *Blending in the Rainbow Nation* Krisztina Tihanyi,2006-01-01 Blending in the Rainbow Nation takes a critical and detailed look at the young generation in post Apartheid South Africa and examines ways in which members of the group relate to and engage with the post Apartheid process of social and political reconciliation      Department of Agricultural Technical Services, Department of Agricultural

Economics and Marketing Publications, L910-1972 ,1978

*Multilingual classroom contexts* Christa van der Walt, Verbra

Pfeiffer, 2021-12-01 By far the majority of South African students get their schooling in a second language which means that our classrooms are multilingual This state of affairs is not exclusive to our country as can be seen in the many academic conferences on multilingual learning and teaching Terms like translanguaging and biliteracy appear in many articles and books that discuss the role language in education What makes the multilingual nature of our South African classrooms challenging is the fact that many learners switch from one language of learning and teaching to another at various points in their school career from home language to English or Afrikaans after the foundation phase from one language of learning and teaching to another when they move to new schools high school or tertiary institutions This book is an attempt to highlight the transitions from home to school from foundation to intermediate phase from primary to high school and from high school to tertiary institutions

**Language Planning and Policy in Africa** Richard B. Baldauf, Robert B. Kaplan, 2004 A longer range purpose is to collect comparable information on as many polities as possible in order to facilitate the development of a richer theory to guide language policy and planning in other polities that undertake the development of a national policy on languages This volume is part of an areal series which is committed to providing descriptions of language planning and policy in countries around the world

**BOOK JACKET The International Journal of Speech, Language and the Law** ,2005

**Improving Primary Mathematics Education, Teaching and Learning** Mellony Graven, Hamsa Venkat, 2017-01-19

This book focuses on how to improve the teaching and learning of primary level mathematics education within resource constrained contexts It builds on two large numeracy projects within South Africa which speak to broader global concerns and highlight how research and development not only enables one to meet ethical imperatives but also explore how further interventions can be developed Teacher and research communities must work together to create mutually beneficial relationships and establish a cohesive understanding of the requirements of primary mathematics education

Psychological Assessment in South Africa Sumaya Laher, Kate Cockcroft, 2013-01-01 This book provides an overview of the research related to psychological assessment across South Africa The thirty six chapters provide a combination of psychometric theory and practical assessment applications in order to combine the currently disparate research that has been conducted locally in this field Existing South African texts on psychological assessment are predominantly academic textbooks that explain psychometric theory and provide brief descriptions of a few testing instruments Psychological Assessment in South Africa provides in depth coverage of a range of areas within the broad field of psychological assessment including research conducted with various psychological instruments The chapters critically interrogate the current Eurocentric and Western cultural hegemonic practices that dominate the field of psychological assessment The book therefore has the potential to function both as an academic text for graduate students as well as a specialist resource for professionals including psychologists psychometrists remedial teachers and human resource practitioners
