An Adventure in

Service-Learning Anto T. Kerins,2016-04-08 An Adventure in Service Learning argues that education can provide not just knowledge and skills but it can also encourage the development of values and responsibility Service Learning is a teaching method unlike any other It allows students to use their classroom theory to help others through relevant service or

volunteering activity In so doing it gives students the opportunity to use the experiences of helping others to strengthen their understanding of subject material Service learning is like a bridge that connects education with the outside world It breathes life and clarity into any subject and better prepares students for life after college An Adventure in Service Learning is a well written and easy to read book It introduces the newcomer to service learning and provides the seasoned practitioner with an important analysis of this most interesting of teaching methods Its discussion of learning and the role of higher education will interest educationalists and its consideration of service will be important to those who are concerned about community A passionate belief in education and its possibilities permeates An Adventure in Service Learning The book examines service learning in project management leadership and management consultancy and provides readers with an understanding of how the method can work in any subject or discipline It clarifies the need for community and discusses the nature and possibilities of what it means to be human The book will help to renew and reinvigorate practitioners policy makers and the education system as a whole
